

# PULITZER DIES ON BOARD YACHT

New York Editor Suddenly Succumbs to Heart Disease.

FEELING ILL SEVERAL DAYS

Not Until a Few Hours Before the End Was the Gravity of the Publisher's Condition Suspected—Death Comes While His Yacht Is Lying in Charleston Harbor on Voyage to Island Off Georgia Coast.

Charleston, S. C., Oct. 30.—Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch, died aboard his yacht, the Liberty, in Charleston harbor. The immediate cause of Mr. Pulitzer's death was heart failure. He had been in ill health for several days, but until a few hours before the end none suspected the gravity of his condition.

Mrs. Pulitzer, who had been sent for, arrived from New York and reached the yacht shortly before her husband died. At his bedside when the end came also was his youngest son, Herbert, who has been cruising with his father.

Mr. Pulitzer's body will be taken north on a special Pullman car. The funeral will take place at Woodlawn cemetery in New York, probably toward the end of the week.

Mr. Pulitzer's son, Joseph, Jr., now is on his way from St. Louis with his wife and one of his daughters will come from Florida. Ralph Pulitzer, the eldest son, is on his way to Charleston and will meet the train en route.

Mr. Pulitzer's yacht had been in Charleston harbor only six days. She was on her way to Jekyll island, near Brunswick, Ga., where Mr. Pulitzer owned property.

For more than a quarter of a century Joseph Pulitzer had been one of the leading figures in American journalism. Born in Hungary in 1847 and educated there he came to this country in 1863, enlisted in the Union army and served as a cavalryman until the end of the war, when he settled in St. Louis, which for many years was to be the scene of his journalistic activities.

Enters Journalism as Reporter.

His early newspaper training was as a reporter and afterwards city editor, managing editor and part proprietor of the Westliche Post, edited by Carl Schurz. He bought the St. Louis Post-Dispatch, which, under his management, became in a few years one of the best known and most widely circulated journals in the section. Mr. Pulitzer's entry into New York journalism took place in 1883, when he bought the World, then a paper of small circulation. Its circulation and prestige grew rapidly under his general direction. A building to house it, which he erected in 1890 on Park row, was, until overtopped by the skyscrapers of later years, one of the most striking of New York's office buildings.

Mr. Pulitzer's sight began to fail him in the late eighties and after a time he became totally blind. Ever since he had been a partial invalid, but up to the last he kept general supervision over his newspaper properties in New York and in St. Louis, and taken an interest in civic affairs. Much of his wealth has been given for educational purposes. He donated \$1,000,000 to Columbia college to establish and maintain a college of journalism and established scholarships in that institution for deserving boy graduates of New York public schools.

During his residence in Missouri Mr. Pulitzer served as a member of the legislature and was a delegate from that state to the Democratic national convention in 1880. He was elected to the Forty-ninth congress from a New York district, but resigned after a few months' service.

## KEEN INTEREST IN RESULTS

Elections Will Be Held in Several States Nov. 7.

Chicago, Oct. 30.—Although the elections to be held Nov. 7 will be quiet, compared with the presidential struggle next year, interest in them nevertheless is keen. There will be elections of varying importance in a number of states a week from next Tuesday. States which will elect governors or other state officers are: Rhode Island, Massachusetts, Maryland, Kentucky, Mississippi, Louisiana and New Mexico. In other states justices of the supreme court and members of legislatures will be chosen and several congressional vacancies filled.

While this is regarded as an off year, national interest centers in Massachusetts, where the Democratic and Republican parties have named full state tickets.

Texas Mob Hangs Negro.

Marshall, Tex., Oct. 30.—Will Ollie, a negro, charged with criminally attacking a white woman five miles west of Marshall last Friday morning, was hanged to a tree near the scene of the crime. It is charged that Ollie attacked the woman as she was entering a field on her farm and, after choking her, attempted to hang her and set fire to her clothing.

## REBELS MENACE EMPIRE CAPITAL

Issue Ultimatum and May Open Fire on Peking.

WITHIN STRIKING DISTANCE

National Assembly Endorses Demands of Revolutionists for Constitutional Government and Sends Memorial to Throne—Dispatch From Hankow Says Foreign Residents Are Considered to Be in Some Danger.

London, Oct. 30.—A special from Peking says 20,000 soldiers of the Third and Twentieth divisions and the second mixed brigade, composing the Second army for the Yangtse campaign, have given the regent the option of accepting immediately their demands for a complete constitutional government or facing an attack on Peking from their station at Lanchow which is within striking distance of the capital.

The national assembly, at a secret session, endorsed those demands and formally memorialized them to the throne. The demands include the promulgation of a parliament with power to revise the constitution; that the army and navy shall not be employed in internal troubles without the consent of parliament; that the emperor no longer shall have absolute power with respect to life and death; that political exiles shall be pardoned; that a responsible cabinet and premier shall be chosen by the assembly and that royal prerogative shall be ineligible to serve in the cabinet.

The presentation of the memorial caused a great sensation at the palace.

A telegram received from Admiral Sah, according to the same dispatch, says that the navy may desert unless there is a political change.

A special dispatch from Hankow says the foreign residents, on account of the fighting, are considered to be in some danger.

Americans are attending the most seriously wounded of the imperialists who fell in Friday's battle.

A special from Peking says that the imperialists advanced to attack Hankow on Saturday. The result thus far is not known.

## IN BEHALF OF FIVE STATES

Brief Asks Supreme Court to Uphold Initiative and Referendum.

Washington, Oct. 30.—In the name of California, Arkansas, Colorado, South Dakota and Nebraska, George Fred Williams of Boston sent to Washington a brief calling upon the supreme court of the United States to hold constitutional the initiative and referendum method of legislation adopted by Oregon. He expects to ask the court for permission to file it, on behalf of these states, when the Oregon case, involving the constitutionality of the method, comes up for oral argument before the court.

Imperfect political conditions in this country have led for a demand for the initiative and referendum method of legislation, Mr. Williams says.

## ARE TOO MANY REGULATIONS

Governor Dix Says Business Suffers From Plethora of Laws.

Albany, N. Y., Oct. 30.—"The modern forces of combination and co-operation have their origin in the spirit of American enterprise and national need and opportunity," said Governor Dix in a statement giving his views on the suit to dissolve the United States Steel corporation. "They are forces that should not be annihilated, but conserved and regulated in the people's interests. We are suffering from a plethora of laws and regulations aimed at the conduct of business.

"The great need of the time is to cease ill considered interference and, consistent with human rights, give the fullest resourcefulness of the American people."

## GIVES UP \$400,000 TO WED

Heiress Displeases Wealthy Aunt and Loses Fortune.

Galveston, Tex., Oct. 30.—To become the bride of Wendell Phillips, a young real estate clerk of Los Angeles, Miss Isabella Koenig, twenty years old, of Bremen sacrificed a fortune of \$400,000.

The young woman's wedding was opposed by her aunt, Mrs. George Elsborg of Fredericksburg, Tex., who had planned to make the girl her heir.

## Defies Niagara in Motorboat.

Niagara Falls, N. Y., Oct. 30.—Captain Klaus Larsen of Detroit made his second Niagara river trip in a motorboat from the cataract to Lewiston. He completed the six-mile trip through the turbulent water in twenty-five minutes, coming through without a scratch.

## JOSEPH PULITZER.

Noted New York Editor Dies Suddenly on Yacht.

## KILLED ON WAY TO DANCE

Two Ohio Men Lose Lives in Wreck Near Xenia.

Xenia, O., Oct. 30.—Two men were killed when a doubleheader freight train on the Cincinnati, Hamilton and Dayton railroad went through a fifty-foot trestle over Caesar creek, six miles east of Xenia.

Charles Figgins and Harry Redmond were the men killed. The latter was crushed into a shapeless mass between two cars and the former was pinned beneath the debris and drowned. Eighteen cars went into the creek, taking with them 200 feet of trestle.

Both the dead men were residents of Xenia and were stealing a ride on the train to the next town to attend a dance.

## THREE KILLED AND THIRTY INJURED

Official Report Blames Brakeman for Railway Wreck.

Rock Springs, Wyo., Oct. 30.—Human fallibility caused the wrecking of the Union Pacific passenger train that ran into a freight train near here and resulted in death to three men and injuries to thirty others, according to an official report given out by the railroad.

Engineer H. C. Bangs and Fireman W. S. Cherkin of the passenger train were killed, as was a track worker who was on the way to New York.

According to the official report the accident was due to the action of Robert E. Lee, head brakeman of a westbound freight train, which had been sidetracked to allow the westbound fast mail to pass. Before the mail train came in sight from the east the eastbound Atlantic express came along.

As this passenger train neared the switch leading to the sidetrack, which lies between the eastbound and the westbound tracks, Brakeman Lee, the statement says, "for some unaccountable reason, stepped up to the switch stand and threw the switch, causing the Atlantic express to run in on the passing track and collide with the engine of Lee's own train."

## FARMER SHOT BY AUTOIST

Agriculturist Was Bitterly Prejudiced Against Machines.

Charlotte, N. C., Oct. 30.—Because he allowed his prejudice against automobiles to carry him to the extent of drawing a pistol on a passing car Sam Whither, a Cleveland county farmer, lost his life. Facing the drawn weapon in Whither's hand Lucius Randall, a Gaffney (S. C.) business man, shot Whither twice, instantly killing him.

Randall met Whither on the road. The latter alighted from his buggy and, drawing a pistol, announced that he was going to kill him. Randall pleaded with him without effect and then shot. He surrendered to the sheriff.

## STOCKMAN DIES IN WRECK

Great Western Passenger Train Runs Into Freight.

St. Paul, Oct. 30.—Through the alleged negligence of E. G. Beacon, Chicago Great Western block signal operator at Stanton, about forty miles south of St. Paul, one man was instantly killed, several passengers were slightly injured and five freight cars were smashed to splinters, when the first division of passenger train No. 1, northbound from Chicago, ran into the caboose of a freight on the main line near the depot at Randolph, Minn.

Joseph Pesch, twenty-nine years old, a stockman, living in the village of Waltham, was riding in the caboose and was instantly killed.

## Attempts Wholesale Murder.

Parkersburg, W. Va., Oct. 30.—Carroll L. James, a railroad conductor of this city, shot and killed his father-in-law, William Pritchard, probably fatally wounded his mother-in-law, slightly injured his wife and committed suicide at Pennsboro, Ritchie county, West Virginia. James broke into the Pritchard home and killed his victims while they slept. He made no effort to harm his four-year-old daughter, who occupied the bed with her mother and grandmother.

## ALASKA PROBE TO BE RESUMED

Controller Bay Affair Is the Focal Point.

MAY BECOME CAMPAIGN ISSUE

Pinchot Partisans Not Fighting Particular Persons, but a Government Policy—Secretary Wilson and Dr. Wiley Interested in Sports—Billy Hughes as a Hero.

By ARTHUR W. DUNN.

Washington, Oct. 30.—[Special.]—Chairman James M. Graham of the house of representatives committee on expenditures in the interior department will call his committee together about Nov. 1 to resume the Controller bay (Alaska) lands hearing, which was only partially complete when the last session of congress adjourned.

Congressman Graham has called to his attention several new phases of the Alaskan situation, principally the allegation that a concerted movement to "bear" Alaska in the market of the public eye is afoot in the government service. This, with the original allegations which started the investigation and numerous little charges and countercharges, will be taken under the committee's wing in due time to hop forth and peep for themselves. Chairman Graham has expressed his intention to maintain an attitude of strict impartiality.

Both Sides Loaded.

Representatives of both sides of the controversy have been to Alaska this summer "to get first hand information" and have returned loaded to the muzzle. Louis D. Brandeis, who was counsel for Pinchot in the Ballinger-Pinchot unpleasantness, has been retained by the committee in this case. For some time he has been busy preparing his plan for conducting the case. At the hearings his questioning is expected to bring out some interesting disclosures.

The other side is not unprepared. With him in Alaska Secretary Fisher had Dr. J. A. Holmes, chief of the bureau of mines; A. H. Brooks, who is to be made chief geologist of the geological survey, and George C. Martin, who has spent seven out of the last nine years in Alaska. Fisher believes thoroughly in his version of conservation. Pinchot believes in his. The object of the Pinchot conservationists seems to be not to prove that any member of the administration is dishonest, but rather that the policy adopted by the administration is wrong and should be amended.

Two Young Old Sports.

Dr. Wiley, ardent advocate of good health, whether or not it be gained by the consumption of pure food, is enthusiastic for sports of all sorts. He just couldn't miss seeing one of the games of the world's series, so he left Washington and saw it, "quite incidentally" dropping in at the pure food laboratory later to talk with some of his inspectors about running down violators of the pure food law.

Dr. Wiley is one of the most voracious sportsmen in the government. He positively refuses to talk shop after he gets out of the office. Going across the mall he will discuss sports, farming, books, the weather—anything but chemistry and "pure food." The doctor is sixty-seven years young.

Secretary Wilson, ten years his senior, regards time with indifference akin to that shown by the food expert Tama Jim also is a fan, although he does not go to such lengths to see the game. But in view of the fact that reports of the big games went into his department by special wire and were laid on his desk at regular intervals by innings or less—he regarded himself as in a class at least superior to the newspaper fan or the fellows who stand in the street to watch an electric score board.

Hughes Dodged Hero Medal.

Congressman Billy Hughes of New Jersey laughs about putting over one on the newspapers. "Modesty is the best policy," he says, so naturally he didn't want the embarrassment of the publicity that would follow his saving the life of a "petite" person or "gigantesque" if so she were, at the scene.

"Yes," he said, "I really should have a hero medal, not for saving some one from drowning, but for keeping it dark. I always try to be on the good side of the newspaper men, and I find that their friendship occasionally is useful. When, dripping, I came out of the water after that little incident at the shore last year I knew that the omnipresent reporter was in the crowd. I hunted him out and was thankful that he was my friend. I was desirous. 'Look here,' I said, shaking him, 'if you're my friend you don't know me.' And he didn't. He gave me a stylish nom de plume."

What Troubles Bassford.

Wallace Bassford, secretary to Speaker Clark, was telling a few friends how sure he was that Champ was going to be the next president and one of them remarked: "I suppose you have already figured out just how you will spend that salary of \$7,500?"

"I have it all figured out so far as the \$7,000 is concerned," replied Bassford. "What troubles me is how I shall spend that \$500."

The Swallow.

The temperature of a swallow's body is extraordinary high, no less than 112 degrees F.

## REAR ADMIRAL HOWARD.

Commander of Fourth Division of Fleet Anchored in Hudson.

## MORE PAY FOR RAILROAD MEN

English Companies Plan to Thwart Strike Movement.

London, Oct. 30.—It is stated that the railway companies have decided to increase the rates of wages of all the lower grade men in their service.

This is a counterstroke to the agitation in favor of a strike to enforce better terms than those offered by the railway commission.

It may mean higher freight rates and, where possible, higher passenger rates.

## ITALIANS REPULSE TURKISH ATTACK

Sultan's Forces Reported to Have Suffered Severely.

Tripoli, Oct. 30.—Turkish forces attacked the town of Homs, not far from Tripoli, but were repulsed with heavy losses. The Italians had two killed and two wounded.

A Malta paper says that it has direct information that 540 Arabs have been shot after a summary trial at Tripoli.

## GERMANY ON MOROCCO BOARD

Also Gains Trade, Land, Fishing and Mining Freedom.

Frankfurt-on-Main, Germany, Oct. 30.—A Berlin dispatch to the Frankfurter Zeitung gives the leading points of the Franco-German agreement on Morocco. Germany is to be represented on the commission having oversight of the government contracts. Freedom to trade, to acquire land and to fish along the coast is obtained; also the acquisition and operation of mines as well as the unrestricted export of ores to Germany. Germany will participate in the superintendence of the railways and a number of seaports will be opened.

The correspondent adds that the German government three years ago considered the advisability of a rupture with France over Morocco.

## SUFFRAGISTS DAMAGE HALL

Must Pay for Injured Furnishings at Louisville.

Louisville, Oct. 30.—"Suffragettes may know how to run the government but they are not housekeepers," said W. R. Schmidt, chairman of the board of trustees of the Masonic commandery, who has charge of Demolay hall, where the national body of suffragettes met recently in convention as he pointed out the scarred walls, battered seats and loosened tiles in the floor.

It is estimated that the damage will be about \$60 and a bill for the amount of repairs will be forwarded the national committee in New York for settlement.

## AUTO RIDE IN COLD WIND

President Taft Passes Quiet Day in Chicago.

Chicago, Oct. 30.—With the exception of a fifty-five-mile automobile ride in a cold wind that swept over Chicago's boulevards and parks President Taft passed a quiet Sunday here. He attended church in the morning, lunched at his hotel with John Hays Hammond, hostmaster Campbell of Chicago and a few acquaintances, spoke to several thousand negroes, near the close of the automobile ride, and addressed the Chicago Sunday Evening club on "Peace and Arbitration."

## Auto Accident Kills Farmer.

Guthrie Center, Ia., Oct. 30.—Frank Johnson, a farmer, was killed and Lieutenant David Bower of the Twenty-third United States infantry was injured, probably fatally, in an automobile accident here. The two were riding in Johnson's car when the steering gear broke and the car overturned.

# PRESIDENT WILL INSPECT FLEET

## NEWS IN SUNDAY'S PAPERS

Suggestion now made in Boston that Rev. Richeson may be shielding real slayer of Avis Linnell.

President Taft before Chicago Bar association replies to Senator Clapp's attack on his veto of Arizona-New Mexico statehood bill.

Mrs. Laura Stannard found not guilty of having murdered her husband, Charles Stannard, by strychnine poisoning, by Ontonagon (Mich.) county jury.

Chinese government reported to have effected a loan of \$18,000,000 from a Belgian syndicate. Victory near Hankow cheers administration forces.

## CRIMINAL ACTION PROBABLE

Officers of Steel Corporation May Be Prosecuted.

Washington, Oct. 30.—The department of justice has been and is still considering criminal prosecution of the officers of the United States Steel corporation.

This statement was made at the department of justice. It followed the published statement that Attorney General Wickersham indicated in his talk that he was not going to proceed criminally with the steel trust officials. It was emphatically denied at the department that Mr. Wickersham said or ever intimated that he was not going to prosecute the steel trust officials.

Nothing definite towards bringing criminal action will be done for some time.

## Women Register as Prohibitionists.

San Diego, Cal., Oct. 30.—In Fall Brook, where the vote was 2 to 1 for the enfranchisement of women, it is announced that of the first twenty women to register nineteen registered as Prohibitionists. This precinct will vote on the wet and dry proposition on Nov. 7.

## A Full Mail.

"A full mail" carried by an Atlantic liner averages 200,000 letters and 300 sacks of newspapers.

## Rear Admiral Sands Dies.

Washington, Oct. 28.—Rear Admiral James H. Sands, U. S. N., retired, who once commanded the navy yard at New York, Boston, Philadelphia and Washington and participated in the evacuation of Charleston, died at his home here. He was sixty-six years old.

## GRAIN AND PROVISION PRICES

St. Paul Live Stock.  
St. Paul, Oct. 28.—Cattle—Good to choice steers, \$6.50 to 7.00; fair to good, \$5.75 to 6.35; good to choice cows and heifers, \$4.75 to 5.25; veals, \$5.00 to 7.00. Hogs—\$6.00 to 6.15. Sheep—Wethers, \$3.25 to 3.50; yearlings, \$3.25 to 4.00; spring lambs, \$4.00 to 5.00.

## Duluth Wheat and Flax.

Duluth, Oct. 28.—Wheat—On track and to arrive, No. 1 hard, \$1.08 1/4; No. 2 Northern, \$1.07 1/4; No. 3 Northern, \$1.06 1/4; Dec., \$1.06 1/4; May, \$1.10 1/4. Flax—On track and in store, \$2.20 1/4; to arrive, \$2.18 1/4; Oct., \$2.20 1/4; Nov., \$2.18 1/4; Dec., \$2.15 1/4; May, \$2.13 1/4.

## Chicago Grain and Provisions.

Chicago, Oct. 28.—Wheat—Dec., 98 1/2 to 99 1/2; May, \$1.03 1/4; July, 97 1/2; Corn—Dec., 63 1/2; May, 65 1/2; July, 65 1/2. Oats—Dec., 47 1/2; May, 49 1/2; July, 46 1/2. Pork—Jan., \$15.70; May, \$15.85. Butter—Creameries, 24 to 31; dairies, 20 to 25. Eggs—15 to 23c. Poultry—Turkeys, 14c; chickens, 9c; springs, 10 1/2c.

## Minneapolis Grain.

Minneapolis, Oct. 28.—Wheat—Dec., \$1.06 1/4; May, \$1.10 1/4. Cash close on track: No. 1 hard, \$1.08 1/4; No. 1 Northern, \$1.07 1/4 to 1.07 1/2; to arrive, \$1.07 1/4 to 1.07 1/2; No. 3 Northern, 99c; No. 2 yellow corn, 71 1/2 to 72c; No. 4 corn, 69 to 70 1/2; No. 3 white oats, 45 1/2 to 46c; to arrive, 44 1/2; No. 3 oats, 42 to 44c; barley, 68c to \$1.18; Flax, \$2.18 1/2; to arrive, \$2.18 1/2.

## Chicago Live Stock.

Chicago Oct. 28.—Cattle—Beeves, \$4.55 to 8.75; Texas steers, \$4.00 to 5.80; Western steers, \$4.15 to 7.00; stockers and feeders, \$2.90 to 5.75; cows and heifers, \$1.90 to 5.85; calves, \$5.00 to 8.75. Hogs—Light, \$5.75 to 6.40; mixed, \$5.50 to 6.50; heavy, \$5.75 to 6.55; rough, \$5.75 to 6.00; good to choice heavy, \$6.00 to 6.55; pigs, \$4.00 to 5.50. Sheep—Native, \$2.25 to 3.70; yearlings, \$3.50 to 4.25; lambs, \$3.50 to 6.00.

Plans Nearly Complete for Imposing Naval Review.

## VESSELS ANCHORED IN HUDSON

Pageant Promises to Eclipse Any Previous Event of the Kind Ever Seen in This Country—Chief Executive Next Thursday Will Sail Through Four Lines of Ships and Then Watch Mighty Armada Get Under Way.

Chicago, Oct. 30.—Secretary of the Navy Meyer, who came to Chicago to assist in the dedication of the new naval training station here and to arrange for the review of the great fleet of battleships and other vessels of war now assembled in New York by President Taft, left for the East.

The main features of the review have been agreed upon and only the smaller details remain to be worked out by the naval authorities. The review promises to eclipse any naval pageant ever seen in this country. President Taft not only will sail through the four miles of ships at anchor in the Hudson river, but will watch the vast armada pick up its anchors and get under way. He then will lead the long column of 102 fighting ships down the way and off Staten Island will stand aside on the Mayflower and again review the fleet as it passes out to sea.

The presidential review will take place Thursday, Nov. 2. Wednesday the secretary of the navy will inspect the fleet from the dispatch boat, the Dolphin. In a sense this inspection really will mark the beginning of the pageant, for Secretary Meyer will be received with all the honors due his office. President Taft will reach New York early Thursday morning and will be in and about the battleships all day long.

## President Intends Taking Rest.

In the evening he will depart for Hot Springs, Va., to rest three or four days before filling the supplementary engagements in Cincinnati, Kentucky and Tennessee, which he made recently.

The Mayflower, dressed in the gayest of bunting and flying the president's flag, will reach the head of the four battleship lines at 10 o'clock, where it will anchor to permit the commander-in-chief of the fleet, Rear Admiral Hugo Osterhaus, and possibly the division commanders to repair on board and pay their respects to the commander-in-chief of the army and the navy.

President Taft will return Admiral Osterhaus' visit on board the flagship, the Connecticut. When he is again aboard the Mayflower the yacht will steam up the river through the water lane formed by the first and second columns of the anchored fleet. The lane is seven miles long.

After the last little torpedo boat at the end of the column has paid its tribute of twenty-one guns to the president the Mayflower will turn and, heading for the south, will steam back through the third and fourth columns. From the time the Mayflower starts at the beginning of the review until the fleet has picked its way through the narrow and is headed out past Sandy Hook the saluting will be almost continuous.

The spectacle of the vast fleet getting under way in the narrow confines of New York harbor probably will be witnessed from shore and shipboard by countless thousands of people.

## SQUADRON READY FOR REVIEW

Atlantic Fleet in New York Magnet for Million Sightseers.

New York, Oct. 30.—The great array of one hundred battleships, cruisers, torpedo boats and other war craft lined up in sweeping triple column on the Hudson's waters for review by President Taft on Thursday was the magnet which drew probably a million persons to the river front. Thousands visited the various ships, while other thousands on excursion boats circled the fleet.

Three new armorclads joined the column, the battleship Maine, the cruiser North Carolina and the dreadnought Utah, the latter the latest type of the American navy's fighting machines.

## THREE AMERICAN CARDINALS

Farley, O'Connell and Falconio to Receive Red Hats.

Rome, Oct. 30.—The pope will create

PULITZER DIES  
ON BOARD YACHT

New York Editor Suddenly Succumbs to Heart Disease.

FEELING ILL SEVERAL DAYS

Not Until a Few Hours Before the End Was the Gravity of the Publisher's Condition Suspected—Death Comes While His Yacht Is Lying in Charleston Harbor on Voyage to Island Off Georgia Coast.

Charleston, S. C., Oct. 30.—Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch, died aboard his yacht, the Liberty, in Charleston harbor. The immediate cause of Mr. Pulitzer's death was heart failure. He had been in ill health for several days, but until a few hours before the end none suspected the gravity of his condition.

Mrs. Pulitzer, who had been sent for, arrived from New York and reached the yacht shortly before her husband died. At his bedside when the end came also was his youngest son, Herbert, who has been cruising with his father.

Mr. Pulitzer's body will be taken north on a special Pullman car. The funeral will take place at Woodlawn cemetery in New York, probably toward the end of the week.

Mr. Pulitzer's son, Joseph, Jr., now is on his way from St. Louis with his wife and one of his daughters will come from Florida. Ralph Pulitzer, the eldest son, is on his way to Charleston and will meet the train en route.

Mr. Pulitzer's yacht had been in Charleston harbor only six days. She was on her way to Jekyll Island, near Brunswick, Ga., where Mr. Pulitzer owned property.

For more than a quarter of a century Joseph Pulitzer had been one of the leading figures in American journalism. Born in Hungary in 1847 and educated there he came to this country in 1863, enlisted in the Union army and served as a cavalryman until the end of the war, when he settled in St. Louis, which for many years was to be the scene of his journalistic activities.

Enters Journalism as Reporter.

His early newspaper training was as a reporter and afterwards city editor, managing editor and part proprietor of the Westliche Post, edited by Carl Schurz. He bought the St. Louis Post-Dispatch, which, under his management, became in a few years one of the best known and most widely circulated journals in the section. Mr. Pulitzer's entry into New York journalism took place in 1883, when he bought the World, then a paper of small circulation. Its circulation and prestige grew rapidly under his general direction. A building to house it, which he erected in 1890 on Park Row, was, until overtopped by the skyscrapers of later years, one of the most striking of New York's office buildings.

Mr. Pulitzer's sight began to fail him in the late eighties and after a time he became totally blind. Ever since he had been a partial invalid, but up to the last had kept general supervision over his newspaper properties in New York and in St. Louis and taken an interest in civic affairs. Much of his wealth has been given for educational purposes. He donated \$1,000,000 to Columbia college to establish and maintain a college of journalism and established scholarships in that institution for deserving boy graduates of New York public schools.

During his residence in Missouri Mr. Pulitzer served as a member of the legislature and was a delegate from that state to the Democratic national convention in 1880. He was elected to the Forty-ninth congress from a New York district, but resigned after a few months' service.

## KEEN INTEREST IN RESULTS

Elections Will Be Held in Several States Nov. 7.

Chicago, Oct. 30.—Although the elections to be held Nov. 7 will be quiet, compared with the presidential struggle next year, interest in them nevertheless is keen. There will be elections of varying importance in a number of states a week from next Tuesday. States which will elect governors or other state officers are: Rhode Island, Massachusetts, Maryland, Kentucky, Mississippi, Louisiana and New Mexico. In other states justices of the supreme court and members of legislatures will be chosen and several congressional vacancies filled.

While this is regarded as an off year, national interest centers in Massachusetts, where the Democratic and Republican parties have named full state tickets.

Texas Mob Hangs Negro.

Marshall, Tex., Oct. 30.—Will Ollie, a negro, charged with criminally attacking a white woman five miles west of Marshall on Friday morning, was hanged from a tree near the scene of the crime. It is charged that Ollie attacked the woman as she was entering a field on her farm and, after choking her, attempted to hang her and set fire to her clothing.

Marshall, Tex., Oct. 30.—Will Ollie, a negro, charged with criminally attacking a white woman five miles west of Marshall on Friday morning, was hanged from a tree near the scene of the crime. It is charged that Ollie attacked the woman as she was entering a field on her farm and, after choking her, attempted to hang her and set fire to her clothing.

## JOSEPH PULITZER.

Noted New York Editor Dies Suddenly on Yacht.

## KILLED ON WAY TO DANCE

Two Ohio Men Lose Lives in Wreck Near Xenia.

Xenia, O., Oct. 30.—Two men were killed when a doubleheader freight train on the Cincinnati, Hamilton and Dayton railroad went through a fifty foot trestle over Caesar creek, six miles east of Xenia.

Charles Figgins and Harry Redmond were the men killed. The latter was crushed into a shapeless mass between two cars and the former was pinned beneath the debris and drowned. Eighteen cars went into the creek, taking with them 200 feet of trestle.

Both the dead men were residents of Xenia and were stealing a ride on the train to the next town to attend a dance.

## THREE KILLED AND THIRTY INJURED

Official Report Blames Brakeman for Railway Wreck.

Rock Springs, Wyo., Oct. 30.—Human fallibility caused the wrecking of the Union Pacific passenger train that ran into a freight train near here and resulted in death to three men and injuries to thirty others, according to an official report given out by the railroad.

Engineer H. C. Bangs and Fireman W. S. Cherkin of the passenger train were killed, as was a track worker who was on the way to New York.

According to the official report the accident was due to the action of Robert E. Lee, head brakeman of a westbound freight train, which had been sidetracked to allow the westbound fast mail to pass. Before the mail train came in sight from the east the eastbound Atlantic express came along.

As this passenger train neared the switch leading to the sidetrack, which lies between the eastbound and the westbound tracks, Brakeman Lee, the statement says, "for some unaccountable reason, stepped up to the switch and threw the switch, causing the Atlantic express to run in on the passing track and collide with the engine of Lee's own train."

## FARMER SHOT BY AUTOIST

Agriculturist Was Bitterly Prejudiced Against Machines.

Charlotte, N. C., Oct. 30.—Because he allowed his prejudice against automobiles to carry him to the extent of drawing a pistol on a passing car Sam Whither, a Cleveland county farmer, lost his life. Facing the drawn weapon in Whither's hand Lucius Randall, a Gaffney (S. C.) business man, shot Whither twice, instantly killing him.

Randall met Whither on the road. The latter alighted from his buggy and, drawing a pistol, announced that he was going to kill him. Randall pleaded with him without effect and then shot. He surrendered to the sheriff.

## STOCKMAN DIES IN WRECK

Great Western Passenger Train Runs Into Freight.

St. Paul, Oct. 30.—Through the alleged negligence of E. G. Beacon, Chicago Great Western block signal operator at Stanton, about forty miles south of St. Paul, one man was instantly killed, several passengers were slightly injured and five freight cars were smashed to splinters, when the first division of passenger train No. 1, northbound from Chicago, ran into the caboose of a freight on the main line near the depot at Randolph, Minn.

Joseph Pesch, twenty-nine years old, a stockman, living in the village of Waltham, was riding in the caboose and was instantly killed.

Attempts Wholesale Murder.

Parkersburg, W. Va., Oct. 30.—Carroll L. James, a railroad conductor of this city, shot and killed his father-in-law, William Pritchard, probably fatally wounded his mother-in-law, slightly injured his wife and committed suicide at Pennsboro, Ritchie county, West Virginia. James broke into the Pritchard home and killed his victims while they slept. He made no effort to harm his four-year-old daughter, who occupied the bed with her mother and grandmother.

ALASKA PROBE  
TO BE RESUMED

Controller Bay Affair Is the Focal Point.

## MAY BECOME CAMPAIGN ISSUE

Pinchot Partisans Not Fighting Particular Persons, but a Government Policy—Secretary Wilson and Dr. Wiley Interested in Sports—Billy Hughes as a Hero.

By ARTHUR W. DUNN.

Washington, Oct. 30.—[Special.]—Chairman James M. Graham of the house of representatives committee on expenditures in the interior department will call his committee together about Nov. 1 to resume the Controller Bay (Alaska) lands hearing, which were only partially complete when the last session of congress adjourned.

Congressman Graham has called to his attention several new phases of the Alaskan situation, principally the allegation that a concerted movement to "bear" Alaska in the market of the public eye is afoot in the government service. This, with the original allegations which started the investigation and numerous little charges and countercharges, will be taken under the committee's wing in due time to hop forth and peep for themselves. Chairman Graham has expressed his intention to maintain an attitude of strict impartiality.

Both Sides Loaded.

Representatives of both sides of the controversy have been to Alaska this summer "to get first hand information" and have returned loaded to the muzzles. Louis D. Brandeis, who was counsel for Pinchot in the Ballinger-Pinchot unpleasantness, has been retained by the committee in this case. For some time he has been busy preparing his plan for conducting the case. At the hearings his questioning is expected to bring out some interesting disclosures.

The other side is not unprepared. With him in Alaska Secretary Fisher had Dr. J. A. Holmes, chief of the bureau of mines; A. H. Brooks, who is to be made chief geologist of the geological survey, and George C. Martin, who has spent seven out of the last nine years in Alaska. Fisher believes thoroughly in his version of conservation. Pinchot believes in his. The object of the Pinchot conservationists seems to be not to prove that any member of the administration is dishonest, but rather that the policy adopted by the administration is wrong and should be amended.

Two Young Old Sports.

Dr. Wiley, ardent advocate of good health, whether or not it be gained by the consumption of pure food, is enthusiastic for sports of all sorts. He just couldn't miss seeing one of the games of the world's series, so he left Washington and saw it, "quite incidentally" dropping in at the pure food laboratory later to talk with some of his inspectors about running down violators of the pure food law.

Dr. Wiley is one of the most versatile officials in the government. He positively refuses to talk shop after he gets out of the office. Going across the mall he will discuss sports, farming, books, the weather—anything but chemistry and "pure food." The doctor is sixty-seven years young.

Secretary Wilson, ten years his senior, regards time with indifference. Tama Jim also is a fan, although he does not go to such lengths to see the game. But in view of the fact that reports of it the big games went into his department by special wire and were laid on his desk at regular intervals by innings or less—he regarded himself as in a class at least superior to the newspaper fan or the fellows who stand in the street to watch an electric score board.

Hughes Dodged Hero Medal.

Congressman Billy Hughes of New Jersey laughs about putting over one on the newspapers. "Modesty is the best policy," he says, so naturally he didn't want the embarrassment of the publicity that would follow his saving the life of a "petite" person or "gigantesque," if so she were, at the seashore.

"Yes," he said, "I really should have a hero medal, not for saving some one from drowning, but for keeping it dark. I always try to be on the good side of the newspaper men, and I find that their friendship occasionally is useful. When, dripping, I came out of the water after that little incident at the shore last year I knew that the omnipresent reporter was in the crowd. I hunted him out and was thankful that he was my friend. I was 'despised.' 'Look here,' I said, shaking him, 'if you're my friend you don't know me.' And he didn't. He gave me a stylish new de plume."

What Troubles Bassford. Secretary to Speaker Clark, was telling a few friends how sure he was that Champ was going to be the next president, and one of them remarked:

"I suppose you have already figured out just how you will spend that salary of \$7,500?"

"I have it all figured out so far as the \$7,000 is concerned," replied Bassford. "What troubles me is how I shall spend that \$500."

The Swallow.

The temperature of a swallow's body is extraordinarily high, no less than 112 degrees F.

## REAR ADMIRAL HOWARD.

Commander of Fourth Division of Fleet Anchored in Hudson.

## MORE PAY FOR RAILROAD MEN

English Companies Plan to Thwart Strike Movement.

London, Oct. 30.—It is stated that the railway companies have decided to increase the rates of wages of all the lower grade men in their service.

This is a counterstroke to the agitation in favor of a strike to enforce better terms than those offered by the railway commission.

It may mean higher freight rates and, where possible, higher passenger rates.

ITALIANS REPULSE  
TURKISH ATTACK

Sultan's Forces Reported to Have Suffered Severely.

Tripoli, Oct. 30.—Turkish forces attacked the town of Homs, not far from Tripoli, but were repulsed with heavy losses. The Italians had two killed and two wounded.

A Malta paper says that it has direct information that 540 Arabs have been shot after a summary trial at Tripoli.

## GERMANY ON MOROCCO BOARD

Also Gains Trade, Land, Fishing and Mining Freedom.

Frankfurt-on-the-Main, Germany, Oct. 30.—A Berlin dispatch to the Frankfurter Zeitung gives the leading points of the Franco-German agreement on Morocco. Germany is to be represented on the commission having oversight of the government contracts. Freedom to trade, to acquire land and to fish along the coast is obtained; also the acquisition and operation of mines as well as the unrestricted export of ores to Germany. Germany will participate in the superintendence of the railways and a number of seaports will be opened.

The correspondent adds that the German government three years ago considered the advisability of a rupture with France over Morocco.

## SUFFRAGISTS DAMAGE HALL

Must Pay for Injured Furnishings at Louisville.

Louisville, Oct. 30.—"Suffragettes may know how to run the government but they are not housekeepers," said W. R. Schmidt, chairman of the board of trustees of the Masonic commandery, who has charge of Demolay hall, where the national body of suffragettes met recently in convention as he pointed out the scarred walls, battered seats and loosened tiles in the floor.

It is estimated that the damage will be about \$60 and a bill for the amount of repairs will be forwarded to the national committee in New York for settlement.

## AUTO RIDE IN COLD WIND

President Taft Passes Quiet Day in Chicago.

Chicago, Oct. 30.—With the exception of a fifty-five-mile automobile ride in a cold wind that swept over Chicago's boulevards and parks President Taft passed a quiet Sunday here. He attended church in the morning, lunched at his hotel with John Hays Hammond, Postmaster Campbell of Chicago and a few acquaintances, spoke to several thousand negroes near the close of the automobile ride, and addressed the Chicago Sunday Evening club on "Peace and Arbitration."

Auto Accident Kills Farmer.

Guthrie Center, Ia., Oct. 30.—Frank Johnson, a farmer, was killed and Lieutenant David Bower of the Twenty-third United States infantry was injured, probably fatally, in an automobile accident here. The two were riding in Johnson's car when the steering gear broke and the car overturned.

Mrs. Laura Stannard found not guilty of having murdered her husband, Charles Stannard, by strychnine poisoning, by Ontonagon (Mich.) county jury.

Chinese government reported to have effected a loan of \$18,000,000 from a Belgian syndicate. Victory near Hankow cheers administration forces.

## CRIMINAL ACTION PROBABLE

Officers of Steel Corporation May Be Prosecuted.

Washington, Oct. 30.—The department of justice has been and is still considering criminal prosecution of the officers of the United States Steel corporation.

This statement was made at the department of justice. It followed the published statement that Attorney General Wickersham indicated in his talk that he was not going to proceed criminally with the steel trust officials.

It was emphatically denied at the department that Mr. Wickersham said or ever intimated that he was not going to prosecute the steel trust officials.

Nothing definite towards bringing criminal action will be done for some time.

## Women Register as Prohibitionists.

San Diego, Cal., Oct. 30.—In Fall Brook, where the vote was 2 to 1 for the enfranchisement of women, it is announced that of the first twenty women to register nineteen registered as Prohibitionists. This precinct will vote on the wet and dry proposition on Nov. 7.

## A Full Mail.

"A full mail" carried by an Atlantic liner averages 200,000 letters and 300 sacks of newspapers.

## Rear Admiral Sands Dies.

Washington, Oct. 28.—Rear Admiral James H. Sands, U. S. N., retired, who once commanded the navy yard at New York, Boston, Philadelphia and Washington and participated in the evacuation of Charleston, died at his home here. He was sixty-six years old.

Sheep—Native, \$2.25@3.70; yearlings, \$3.50@4.25; lambs, \$3.50@6.00.

Plans Nearly Complete for Imposing Naval Review.

## VESSELS ANCHORED IN HUDSON

Pageant Promises to Eclipse Any Previous Event of the Kind Ever Seen in This Country—Chief Executive Next Thursday Will Sail Through Flocks of Ships and Then Watch Mighty Armada Get Under Way.

Chicago, Oct. 30.—Secretary of the Navy Meyer, who came to Chicago to assist in the dedication of the new naval training station here and to arrange for the review of the great fleet of battleships and other vessels of war now assembled in New York by President Taft, left for the East.

The main features of the review have been agreed upon and only the smaller details remain to be worked out by the naval authorities.

The review promises to eclipse any naval pageant ever seen in this country. President Taft not only will sail through the four miles of ships at anchor in the Hudson river, but will watch the vast armada pick up its anchors and get under way. He then will lead the long column of 102 fighting ships down the way and off Staten Island will stand aside on the Mayflower and again review the fleet as it passes out to sea.

The presidential review will take place Thursday, Nov. 2. Wednesday the secretary of the navy will inspect the fleet from the dispatch boat, the Dolphin. In a sense this inspection really will mark the beginning of the pageant, for Secretary Meyer will be received with all the honors due his office.

President Taft will reach New York early Thursday morning and will be in and about the battleships all day long.

President Intends Taking Rest.

In the evening he will depart for Hot Springs, Va., to rest three or four days before filling the supplementary engagements in Cincinnati, Kentucky and Tennessee, which he made recently.

The Mayflower, dressed in the gayest of bunting and flying the president's flag, will reach the head of the four battleship lines at 10 o'clock, where it will anchor to permit the commander-in-chief of the fleet, Rear Admiral Hugo Osterhaus, and possibly the division commanders to repair on board and pay their respects to the commander-in-chief of the army and the navy.

President Taft will return Admiral Osterhaus' visit on board the flagship, the Connecticut. When he is again aboard the Mayflower the yacht will steam up the river through the water lane formed by the first and second columns of the anchored fleet. The lane is seven miles long.

After the last little torpedo boat at the end of the column has paid its tribute of twenty-one guns to the president the Mayflower will turn and, heading for the south, will steam back through the third and fourth columns. From the time the Mayflower starts at the beginning of the review until the fleet has picked its way through the narrows and is headed out past Sandy Hook the saluting will be almost continuous.

The spectacle of the vast fleet getting under way in the narrow confines of New York harbor probably will be witnessed from shore and shipboard by countless thousands of people.

## SQUADRON READY FOR REVIEW

Atlantic Fleet in New York Magnet for Million Sightseers.

New York, Oct. 30.—The great array of one hundred battleships, cruisers, torpedo boats and other war craft lined up in sweeping triple column on the Hudson's waters for review by President Taft on Thursday was the magnet which drew probably a million persons to the river front. Thousands visited the various ships, while other thousands on excursion boats circled the fleet.

Three new armored cruisers joined the column, the battleship Maine, the cruiser North Carolina and the dreadnought Utah, the latter the latest type of the American navy's fighting machines.

## THREE AMERICAN CARDINALS

Farley, O'Connell and Falconio to Receive Red Hats.

Rome, Oct. 30.—The pope will create a large number of cardinals at the consistory to be held Nov. 27. Among those to be elevated are Most Rev. John M. Farley, archbishop of New York, and Most Rev. William H. O'Connell, archbishop of Boston. Most Rev. Dionio Falconio, apostolic delegate at Washington, also will be elevated, according to the announcement. This means that, with Cardinal Gibbons, there will be four cardinals in the United States.

Mandot Knocks Out Saylor.

New Orleans, Oct. 30.—Flooring his man seven times Joe Mandot of this city knocked out Young Saylor of Indianapolis in the fifteenth round of a hard fight at the West Side Athletic club. They had been matched for a twenty-round bout.

SOCIAL EVENTS

Mrs. F. G. Hall entertained for Miss Louise Beare on Saturday afternoon. After the arrival of the guests they were soon busy at work at a table with a supply of clothes pins and various colored paper, each dressing one of the bridal party, the names being chosen from little hearts. The bride to be was presented with a train letter written by the guests during the afternoon, which was rolled, sealed and addressed to Dr. and Mrs. Ingersoll, to be read the day following their wedding.

The dining room was beautifully decorated in pink. Roses and ferns formed a center piece and pink hearts and ribbons hung from the chandeliers to the four corners of the table. The hostess served a buffet luncheon and was assisted by Mrs. C. W. Hoffman.

At the close of the luncheon the bride was greatly surprised by the arrival of little Charles Hoffman, carrying a large basket tastefully decorated with roses and ribbons and filled with parcels for the bride to be. In offering it to Miss Beare he read a little presentation poem. Mrs. Hall proved to be a delightful and charming hostess.

How Perfume is Weighed.

It was the Italian physician Salvioni who devised a microbalance of such extreme delicacy that it clearly demonstrated the loss of weight of musk by volatilization. Thus the invisible perfume floating off in the air is indirectly weighed. The essential part of the apparatus is a very thin thread of glass, fixed at one end and extended horizontally. The microscopic objects to be weighed are placed upon the glass thread near its free end and the amount of flexure produced is observed with a microscope magnifying 100 diameters. A mote weighing one-thousandth of a milligram is said perceptibly to bend the thread.—Buffalo Courier.

Foley's Kidney Remedy vs a Hopeless Case

Hon. Ark. J. E. Freeman says: "I had a severe case of kidney trouble and could not work and my case seemed hopeless. One large bottle of Foley's Kidney Remedy cured me and I have never been bothered since. I always recommend it." For sale by all druggists.

Whistler and Disraeli.

Whistler once came very near to painting a portrait of Disraeli. He had the commission. He went down to the country where Disraeli was, but the great man did not manage to get into the mood. Whistler went away disappointed, and shortly afterward there took place a meeting in Whitehall which was the occasion of a well known story. Disraeli put his arm in Whistler's for a little way on the street, bringing from the artist the exclamation, "If only my creditors could see!"

Arabia's Wild Horses.

The wild horses of Arabia will not admit a tame horse among them, while the wild horses of South America endeavor to decoy domesticated horses from their masters and seem eager to welcome them.

### SOCIAL EVENTS

Mrs. F. G. Hall entertained for  
Miss Louise Beare on Saturday after-  
noon. After the arrival of the guests  
they were soon busy at work at a  
table with a supply of clothes pins  
and various colored paper, each  
dressing one of the bridal party, the  
names being chosen from little hearts.  
The bride to be was presented with  
a train letter written by the guests  
during the afternoon, which was  
rolled, sealed and addressed to Dr.  
and Mrs. Ingersoll, to be read the day  
following their wedding.

The dining room was beautifully  
decorated in pink. Roses and ferns  
formed a center piece and pink hearts  
and ribbons hung from the chandel-  
iers to the four corners of the table.  
The hostess served a buffet luncheon  
and was assisted by Mrs. C. W. Hoff-  
man.

At the close of the luncheon the  
bride was greatly surprised by the  
arrival of little Charles Hoffman, car-  
rying a large basket tastefully de-  
corated with roses and ribbons and  
filled with parcels for the bride to be.  
In offering it to Miss Beare he read  
a little presentation poem. Mrs.  
Hall proved to be a delightful and  
charming hostess.

### SPECIAL CLOAK SALE

itching, blind, bleeding or protruding  
Piles in 6 to 14 days. 50c. mwf

### How Perfume Is Weighed.

It was the Italian physician Salvioni  
who devised a microbalance of such  
extreme delicacy that it clearly demon-  
strated the loss of weight of musk by  
volatilization. Thus the invisible  
perfume floating off in the air is indi-  
rectly weighed. The essential part of  
the apparatus is a very thin thread of  
glass, fixed at one end and extended  
horizontally. The microscopic objects  
to be weighed are placed upon the  
glass thread near its free end and the  
amount of flexure produced is observ-  
ed with a microscope magnifying 100  
diameters. A mote weighing one-  
thousandth of a milligram is said per-  
ceptibly to bend the thread.—Buffalo  
Courier.

### Foley's Kidney Remedy vs a Hopeless Case

Hon. Ark. J. E. Freeman says: "I  
had a severe case of kidney trouble  
and could not work and my case  
seemed hopeless. One large bottle of  
Foley's Kidney Remedy cured me and  
I have never been bothered since.  
I always recommend it." For sale  
by all druggists.

# OWN A HOME

**T**HE NORTHWESTERN BUILDING ASSOCIATION OF FERGUS FALLS makes it possible for every man in the territory in which it operates to own his own house if he cares to do so

It has funds on hand at all times which it will be glad to loan to you on terms so favorable that you can't fail to pay for a home if you care to buy or build one. Its assets now exceed a quarter of a million dollars.

If you want to borrow money of this association you don't have to pay in and wait for your money. All loans are made and paid to the borrowers just as soon as the papers are signed and the title examined. If your title is good you can get your loan inside of six days.

More than 300 homes and properties being paid for through this association. No loan too big for it to handle, no loan too small to make. Every man who borrows, borrows on the same footing as every other member. There is no way so easy and so certain of paying for a home as the small regular payment. It affords its members every condition which makes their loans easy for them to handle. Loans can be paid off at any time. Partial payment can be made thus reducing the size of the monthly payments.

When you pay rent the landlord owns the home and has the rent. When you drive a nail or stop up a crack you do it for his benefit. If you own the house where you live you can constantly add to its value through your own efforts and without much expense increase you own comfort and pleasure.

Brainerd is full of men who are prosperous and have their homes paid for because they were willing to pay a little at a time. It also contains many men who could not bother to pay for a home in small payments as it would take too long; but those men are as homeless as ever. The big strike was never made.

The Northwestern Building Association loans on all classes of real estate which look good to its directors as security for the money deposited with the association.

If you want a home investigate the plans and methods of the Northwestern Building Associations. They are up to date in every way. They will meet your wants. Don't be discouraged even though you have but little money. Call or Write and let us show you what you can do.

# 1912 BUICK 1912

In making our 1912 announcement we do so with the assurance that we have something to offer the automobile buying public far in excess of anything ever offered before for the same amount of money or anywhere near it. The BUICK cars for 1912 will be the greatest product emanating from the best that brains and money can produce. ENGINEERS THE WORLD OVER have conceded that the valve in the head type motor is coming to the front by leaps and bounds, simply on account of its POWER, SPEED, SIMPLICITY and DURABILITY.

## THE 1912 FEATURES ARE MANY

There are many special features on the 1912 line which go as regular equipment, and which will make even the fellow who is looking for a lot for his money sit up and take notice—such as BAKER DEMOUNTABLE RIMS, ALL BRASS PARTS NICKLED, HIGH GRADE MOHAIR TOPS, WIND SHIELDS, INVISIBLE SHIFTING GEAR AND EMERGENCY BRAKE LEVERS, SPARK PLUGS ON 45 DEGREE ANGLE, LARGE STEERING WHEELS, NICKLE STEEL SHAFTS AND GEARS, QUIET RUNNING MOTORS, LOW CENTER OF GRAVITY AND HIGH CLEARANCE, AND A FINISH IN WHICH YOU CAN SEE YOURSELF—Improvements that are reflected in the following models:

A SNAPPY, POWERFUL HIGH GRADE ROADSTER	\$850
A HANDSOME, FOREDOOR TOURING CAR	\$1000
A SPECIAL ROADSTER, FULLY EQUIPPED WITH TOP, GLASS FRONT, LIGHT TANK, AND DEMOUNTABLE RIMS	\$1075
A FIVE PASSENGER TOURING CAR, FULLY EQUIPPED	\$1850
A SUPREME MODEL TOURING CAR, FULLY EQUIPPED	\$1850

## ALL CARS FOR 1912 HAVE SLIDING GEAR TRANSMISSION

Every BUICK car for 1912 will represent in its construction absolutely every tried and successful feature tending toward the one idea, that of successful performance for the user under any condition of usage in any section of the world. All the speed and power for which the name Buick is famous has been retained; cars are absolutely noiseless, and in detail of finish and equipment are the equal of any car on the market, regardless of price.

## GOD'S LONGER DAYS A THOUSAND YEARS

Mankind's History the Workday of Great Week.

The Length and Value of Time Viewed From the Divine Versus the Human Standpoint—Pastor Russell Still Abroad.

"A thousand years in Thy sight are but as yesterday."—"A day with the Lord is as a thousand years."—Psalm xc, 4; II Peter iii, 8.

He said in part:—

**Humanity's Great Workday**  
From the Divine viewpoint, earth's history, from Adam's day until now, is merely the workday portion of a great week whose Seventh Day or Sabbath of a thousand years is "the day of Christ," "the last day," "the day of judgment" or "trial for the world, the day in which every knee shall bow and every tongue confess to the glory of God," the day in which "the righteous shall flourish and the evil doers shall be cut off in the Second Death."

In the Divinely-arranged custom of the Jews the new day began at sunset. Thus we are in the evening or beginning of the great week.

### A FAIR OFFER.

Your Money Back if You're Not Satisfied.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them only at our store. 12 tablets 10 cents; 36 tablets 25 cents; 80 tablets 50 cents. Sold only at our store—The Rexall Store, Johnson's Pharmacy, 222 7th St. S.

ding of the great Seventh Day of the Divine Week—the day which means so much of blessing, uplifting, privilege, opportunity of Divine favor to our race through Messiah's glorious Kingdom, which throughout this Seventh Day will reign "from sea to sea and from the river to the ends of the earth," putting down everything contrary to the Divine standards and uplifting the world of mankind (bought with the precious blood at Calvary) from sin, meanness, degradation and the tomb.

"Six days shalt thou labor and do all thy work, but the Seventh is the Sabbath of the Lord thy God. In it thou shalt not do any work." Whoever reads carefully, intelligently, the pages of history must be struck with the working energy which has been manifested by our race and is still being manifested.

### Next the Lesson of Good

The forbidden fruit of Eden was from the tree of the knowledge of good and evil. Doubtless the Creator would eventually have given a full knowledge of both good and evil to our first parents. They were merely forbidden an immediate plunge into knowledge to their own disadvantage. Craving knowledge before its due time, Mother Eve disobeyed her Maker and enticed her husband into disobedience. The result has been that instead of learning the philosophy of good at first and of evil later, they and their race have been precipitated into lessons respecting evil first, with the knowledge of good to come later.

The holy angels, who have never transgressed the Divine Law, have continually the lesson of good—an appreciation of the Divine character, the principles of righteousness, etc. Their lessons in respect to evil they are gaining by observation instead of by experience—the way recommended to our first parents by the Creator, but in their ignorance rejected.

But God foreknew the course which His human children would take under the influence of temptation; He foreknew that they would fall into sin and therefore would experience its penalty sorrow, pain and death. While His eye has pitied His poor creatures for six thousand years, nevertheless He has allowed His great original Plan of the Ages to move along slowly to a grand climax—the Plan which He purposed in Himself from before the foundation of the world.

### God Has Not Neglected Us

From this Divine viewpoint God is not slack concerning His promises. Only six days of the week have yet passed. The glorious Seventh Day in which the great Mediator between God and men will assume His Kingdom powers is just at hand. Instead of thinking that God is neglecting and forgetting to fulfill the Messianic promises, we should with the eyes of faith realize that He is working all things according to the counsel of His own will. We should consider the matter from the opposite standpoint that God has exercised great patience with humanity in not blotting out the race; He has been long-suffering. And this assures us that the Unchangeable One would prefer that none of His creatures should perish in death, but rather that all, if they would, might turn unto Him and live.—II Peter iii, 9; Ezekiel xxxiii, 11.

The great opportunity for the masses of our race to turn to the Lord and to obtain everlasting life will be after the darkness shall have passed, when

the Sun of Righteousness shall be shining forth; after the highway of holiness shall have taken the place of the broad road to destruction; after Messiah, the great King, shall have dethroned Satan, the Prince of darkness, from the world's control; after the Prince of Peace shall have established peace upon a proper basis.

## GREATER ARENA WILL TAKE GARDEN'S PLACE.

Thirteen Story Structure Will Cost \$2,500,000—Seats For 8,622.

New York is to have a great exhibition building to take the place of Madison Square Garden, which is to be torn down in February.

The new building will cover the entire territory bounded by Forty-sixth and Forty-eighth streets and Park and Lexington avenues. It will be a thirteen story show and loft building costing \$2,500,000. Of this amount the Merchants and Manufacturers' Exchange will furnish \$1,000,000. The building and site will belong to the New York Central and New York, New Haven and Hartford railroads. The exchange will have a fifty year lease at an annual rental of from \$300,000 to \$400,000.

The arena will be the same size as that of Madison Square Garden, but it will have a far larger seating capacity. On the main floor will be 3,688 orchestra seats and ninety-one boxes containing 543 seats, and two balconies seating 2,483 and 1,905 respectively, a total seating capacity of 8,622, being more than has the garden.

The upper ten stories will be used for loft purposes. When the arena or central floor space is used for conventions or other large gatherings chairs can be placed for nearly 4,500 additional seats, so that nearly 13,000 people can be seated if desired.

There will be a mezzanine floor with over 150 box stalls. The arrangements for handling horse shows and military tournaments have been made under the direction of James T. Hyde, manager of the New York horse show. The arena will have an earth floor, with two other floors above it, so arranged that they can be easily removed. One of these will be the ordinary wooden floor for trade shows, etc.; the other will be a ballroom floor.

Another feature will be a large tank for aquatic events.

### Cleopatra.

Cleopatra means "fame of her father." It was once very common among the royal ladies of Egypt and Greece and survives in the French Cleo. Cleopatra was born in Alexandria 50 B. C. and died at the age of thirty-nine not by applying a poisonous asp to her bosom, but by swallowing some secret poison.

### Schools of Holland.

In the schools of Holland it is part of the course of instruction to teach French, German and English. When a pupil reaches the period of graduation he must take an examination in these languages. It is therefore not strange that a person of fair education in Holland is able to speak English, at least understandably.

## CHINA'S THRONE REPUBLIC MAY

Present Uprising Is the Most Serious in Years and Financially Strong.

By JAMES A. EDGERTON.  
**A** REPUBLIC in China! That has about the most startling sound of anything heard on this earth for more than a century. Yet that is the avowed object of the revolutionaries who recently captured Wuchang, Hankow and other cities of the province of Hupeh and who are now sweeping over the empire. When a year or two ago it was announced that the Chinese were abandoning their pig-tails and proposing to establish a parliament that seemed about as far on the path of progress as they could reasonably be expected to go, but now it seems that they are traveling the whole road. The world is moving so fast it is hard to keep up with the procession. No sooner is there a revolution that brings a republic in Portugal than another uprising starts a new era of liberty in Mexico, the Italians drive the Turks out of Africa, and then the oldest and most populous empire of them all starts helter skelter toward democracy. The kaleidoscope of world politics changes overnight. The lords are trimmed of power in Great Britain, France and Germany settle their differences over Morocco with nothing more serious than a few conversations, and Italy slices off Tripoli in thirty-three minutes by the clock. But China! Well, when China begins to move the rest of us might as well cut loose and start toward the millennium.

The United States should be especially interested in this latest Chinese uprising for the reason that it is a movement toward popular government, also that ever since the Burlingame treaty we have been a potent influence for liberalism there and for the further reason that it was John Hay's diplomacy which maintained the integrity of China. Moreover, we are especially concerned in all that goes on around the Pacific ocean, the new theater of civilization in which this country should play a star part.

### Six Thousand Years Old.

China is so old that her legendary history goes back something like 6,000 years and so populous that nearly one-third of the world's inhabitants swarm within her provinces. She had a civilization before the time of Abraham, was a flourishing state in the days of the Trojan war, followed great moral and religious teachers ere the dawn of the Christian era and was a very ancient nation when western Europe was emerging from barbarism. The world is strewn with the wrecks of empires, but China has outlived them all. She was a contemporary of Babylon and ancient Egypt. She looked on Rome and Greece as mere young upstarts among the nations. She antedated the Aryan migration. "Westward the star of empire takes its way," but China's star is older and has hung steadfast. In China the people worship their ancestors, and it is no wonder—there are so many of them. It is a land of ancestors. An old family in China has something of which to boast. The aristocracies of Europe are mere mushrooms by comparison. If ancient lineage is a distinction the humblest "chink" has the proudest "mildred" beaten several thousand years.

Primarily the Chinese uprising aims at the dethronement of the Manchu dynasty. This is about 300 years old. It goes back nearly to the settlement of Joochow. The Manchus were called in to protect China from her foes. They liked the country and stayed. Though there are only a handful of them compared to the hundreds of millions of Chinese, the Manchus have ruled the country from that time to the present. Not only have they furnished the emperors, but the ruling groups that surrounded these and many of the subordinate officials. Just how inhumanly oppressive they have been may be judged from the fact that it was the Manchus who made the Chinese shave their heads and wear pig-tails. That would be like fifteen or twenty Canadians going into New York and forcing the whole male population to wear billigoad whiskers.

### The Chinese Washington.

The leader of the revolution is Dr. Sun Yat Sen, who has \$50,000 on his head in China and therefore lives in America, England, India, Japan or anywhere except his own dear native land, where the living is not good. Dr. Sun is a scholar who speaks and writes English fluently and who is a student of the career of Napoleon and of the revolutionary eras in western nations. Rumor has it that if the present insurrection succeeds he is to be the first president of the republic of China. A gentleman who once met Dr. Sun in New York thus described him:

"I was first introduced to Dr. Sun Yat Sen at a social gathering in a well known club. I was greatly struck with him. He was a charming raconteur, and in wonderfully good English at once scholarly and idiomatic he told us the adventures of his eventful life. 'Particularly vivid was his account of how he was kidnapped and imprisoned in the Chinese legation in London. He told how numerous attempts

to assassinate him had been made in America, how China had put a heavy price upon his head and how in England his footsteps were dogged. 'I was followed to this club. I am being shadowed even now,' he said. 'Look! he said as he took us to the club windows. 'Don't you see there? And as he spoke the figure of a Chinaman with the air of a furtive watcher passed by.'

To another informant Dr. Sun Yat Sen declared that his aim, besides expelling the Manchu usurpers and restoring the national glory of China,

## IS TOTTERING; BE THE OUTCOME

Program Is Similar to That Which Inspired American and French Revolutions.

was to achieve a political change on the basis of freedom, equality and humanity. A military government would be established as preliminary to the achievement of this object, he said. China would be restored to the Chinese, a republic would be established and a president elected by universal suffrage. Moreover, equal rights in land would be established on a socialistic basis, abolishing all monopolies. Slavery, foot binding and the opium habit were to be suppressed, and at the end of three years, or earlier if conditions warranted it, the military regime would be replaced by a constitutional regime.

Self government would be effected by means of a national assembly, with

its influence, the foreign concessions helped along the modernizing movement, the missionaries taught democracy along with Christianity, even though they did it unintentionally, and in other ways the living spirit of the west has found entrance into the dead-alive humanity of the orient. The railroads and newspapers have had their part in the work of education, and even commercialism has unwittingly been made an evangel of the new political faith. However selfish may be its motives, trade is a civilizing influence. The open door in China has let in more than merchandise. It has admitted the gospel of the rights of man that has revolutionized the western nations. Once let that get into the hearts of a people and it will do its work. The heaven will lighten the whole lump. Yesterday it was Portugal; today it is China; tomorrow it may be some other nation or many other nations. The change wrought in China is indicated by a Japanese writer, who says:

### New Chinese Nationalism.

"Nationalism was a foreign word to the Chinese in the Telling days. This latter day awakening of the consciousness of the vast millions of China to the sense that they are a part of a great race and of a great empire gives to this present unrest a pregnant

a president as the central figure of the civil authority. While the object of the revolutionary leaders was to preserve China for the Chinese, Dr. Sun Yat Sen said, there was nothing in the movement hostile to foreign residents in China or opposed to foreign trade with that country.

### The Spirit of the West.

That is an inspiring program, breathing the same spirit that actuated the American and French revolutions and that has been present in the great movements toward democracy witnessed in various parts of the earth since then. The seed sown by Cromwell, Rousseau, Thomas Paine, Franklin, Jefferson, Danton and Robespierre has taken root all around the world. Dr. Sun may become another Washington, Bolivar or Garibaldi, a prophet of the new political gospel in the world's oldest civilization. Amid the greatest perils he has planned for years this revolt that was to make a new China in which political liberty, public schools and a free press should end the ancient tyranny and superstition. The uprising is not the thing of a day, but has been long and carefully planned. Months ago Dr. Sun predicted that Wuchang, the very city in which the insurrection started, should be a revolutionary stronghold. Since then he has only waited for the time to grow ripe.

The insurrection first appeared in a province near Hupeh, but was stamped out there temporarily some months ago. In Hupeh it found better footing and soon had spread beyond bounds. From Wuchang it crossed the Yangtze to Hankow and spread like wildfire through the rich provinces of central China. At Hankow and other points the Manchus were massacred. While it is a movement of 'China for the Chinese,' it is not aimed at foreigners. In fact, people from western nations are welcomed since it is the modern ideas of the occident that are behind the revolt. The animosity is definitely and intelligently directed against the Manchus and their overlordship. The goal sought is a new Chinese nationalism, after the pattern of the great nations of the west.

### Public Schools and the Press.

Education is the power that has worked the change. Thousands of Chinese youths have been abroad at school, some of them in the University of Tokyo, others in the colleges of America and Europe. These returning students became the prophets of revolution and change. The thousands of Chinamen that returned to their own land from America have also had an influence. They could not live in a republican atmosphere for years without breathing in some of its spirit. Americans have not dreamed that the men who washed their shirts would thus become the unconscious seed bearers of democracy, but the Providence that is liberating this world works in mysterious ways. The invasion of China by the allies also had

## "PEACE AND SAFETY" A GREAT DELUSION.

God's Times and Seasons Maturing.

## A NEW DISPENSATION OPENING

Pastor Russell in Glasgow—The Divine Plan Diversified but Orderly—Age Follows Age in an Uplifting Process. Not Evolution but Restitution.

Glasgow, Oct. 29.—Pastor Russell gave two discourses today at St. Andrew's Hall to large and attentive audiences. We report his discourse from the text, "Of the times and seasons ye have no need that I write unto you, for yourselves know perfectly that the day of the Lord so cometh as a thief in the night. And when they shall say, Peace and safety, then sudden destruction cometh upon them as travail upon a woman with child and they shall not escape. But ye, brethren, are not in darkness that that day should overtake you as a thief. Ye are children of the light."—I Thessalonians v, 1-5.

The world is not expected to understand the Divine times and seasons, plans and purposes. The Redeemer declared that the Father had hidden these things from the worldly-wise and prudent and has revealed them unto babes—the humble-minded, the footstep followers of Jesus. (Matthew xi, 25.) "The secret of the Lord is with them that reverence Him, and He will show them His Covenant."

### "The Wise Shall Understand"

The Prophet Daniel, referring to the present day, declared, "None of the wicked shall understand, but the wise shall understand." (Daniel xii, 10.) To understand the secret purposes of the great in advance of their accomplishment implies a nearness and touch and acquaintance out of the ordinary. And so God's children, begotten of the Holy Spirit, are privileged to know the things of God—"yea, the deep things."

The speaker likened this relationship between God and His saints to wireless telegraphy. God's people have coherers tuned in harmony with Himself by His Word and Spirit. These can receive much of the deep things of God. The worldly have no coherers at all—no means, therefore, of communication with the Infinite. The lukewarm Christian has, indeed, a coherer in the Holy Spirit, but it is not tuned to the proper key and is, therefore, not prepared to receive the deep things of Divine communication.

Our world for six thousand years has been a battlefield on which the hosts of darkness have largely prevailed over the comparatively small number of children of the light, who in an enemy's country have stood forth for God, the Redeemer, the brethren and the Truth against the "Prince of this world"—Satan. Moreover the children of light have been hindered from using the "carnal weapons" of the children of darkness. They may not render evil for evil nor slander for slander. They may only do good and bless those who revile them.

### Harvest Time Is Here

Is this condition of things to continue forever? Does God intend that to all eternity there shall be this battle between light and darkness, with the darkness in the ascendant and control? No! The Bible declares that a great change and a New Dispensation is at hand, in which the order of affairs will be reversed.

The Lord has been doing a work during the period of the reign of sin and death. He has been selecting two classes of children of the light, both to be used in the great world-wide work of the next Age. God refers to His work in agricultural terms; for instance, with the Jewish nation, He did a plowing, harrowing, sowing, cultivating and reaping work. Their plowing time preceded the entrance of the nation into Canaan. The Law inauguration was the sowing. The reaping of the Age was at its close; Jesus was the Chief Reaper. His Apostles were associates. To them He said, "I sent you forth to reap that whereon ye had bestowed no labor; other men labored and ye are entered into the fruits of their labors." The saints then reaped were gathered into the Gospel garner at Pentecost and after fiery tribulations the field was cleansed of its chaff.

This Gospel Age has similarly been a time of plowing, sowing and reaping. The tribulations of the early Church were associated with the sowing of the precious seed. Again we are in a harvest time—"The harvest is the end of the Age." This time the gathering of the fruitage will be to a still higher plane—"to glory, honor and immortality" by participation in the "first (chief) resurrection." Then will follow the cleansing of the field again by fiery troubles—"a time of trouble such as never was since there was a nation." That trouble time will be a plowing and harrowing time of a new dispensation for a world wide crop under the most favorable conditions. These three different ages, however, produce different crops—as different as are their conditions.

### Oldest Lighthouse.

La Coruna, the Spanish harbor, boasts, it is said, of the oldest lighthouse in the world. It having been built by the Romans in the time of Trajan, between 98 and 117 A. D. About 111 years ago the structure was overhauled and partly rebuilt, though the lower part of the pile was found to be in perfect condition, a tribute to the building ability of the Roman masons. When the weather is favorable the light can be seen a distance of twenty-two miles at sea.

Reasonably Certain.  
"I understand old Skinfint has got religion."

"It's possible."

"Do you really think so?"

"Well, if Skinfint and religion have come together at all I think it is safe to say that he has got religion. There certainly is nothing to indicate that religion has got him."—Chicago Post.

# 1912 BUICK 1912

Thirteen Story Structure Will Cost \$2,500,000—Seats For 8,622.

New York is to have a great exhibition building to take the place of Madison Square Garden, which is to be torn down in February.

The new building will cover the entire territory bounded by Forty-sixth and Forty-eighth streets and Park and Lexington avenues. It will be a thirteen story show and loft building costing about \$2,500,000. Of this amount the Merchants and Manufacturers' Exchange will furnish \$1,000,000. The building and site will belong to the New York Central and New York, New Haven and Hartford railroads. The exchange will have a fifty year lease at an annual rental of from \$300,000 to \$400,000.

The arena will be the same size as that of Madison Square Garden, but it will have a far larger seating capacity. On the main floor will be 3,688 orchestra seats and ninety-one boxes containing 546 seats, and two balconies seating 2,483 and 1,905 respectively, a total seating capacity of 8,622, being more than has the garden.

The upper ten stories will be used for loft purposes. When the arena or central floor space is used for conventions or other large gatherings chairs can be placed for nearly 4,500 additional seats, so that nearly 13,000 people can be seated if desired.

There will be a mezzanine floor with over 150 box stalls. The arrangements for handling horse shows and military tournaments have been made under the direction of James T. Hyde, manager of the New York horse show. The arena will have an earth floor with two other floors above it, so arranged that they can be easily removed. One of these will be the ordinary wooden floor for trade shows, etc.; the other will be a ballroom floor. Another feature will be a large tank for aquatic events.

### Cleopatra.

Cleopatra means "glory of her father." It was once very common among the royal ladies of Egypt and Greece and survives in the French Cleo. Cleopatra was born in Alexandria 50 B. C. and died at the age of thirty-nine not by applying a poisonous asp to her bosom, but by swallowing some secret poison.

### Schools of Holland.

In the schools of Holland it is part of the course of instruction to teach French, German and English. When a pupil reaches the period of graduation he must take an examination in these languages. It is therefore not strange that a person of fair education in Holland is able to speak English, at least understandably.

## CHINA'S THRONE REPUBLIC MAY

Present Uprising Is the Most Serious in Years and Financially Strong.

By JAMES A. EDGERTON.  
A REPUBLIC in China! That has about the most startling sound of anything heard on this earth for more than a century. Yet that is the avowed object of the revolutionaries who recently captured Wuchang, Hankow and other cities of the province of Hupeh and who are now sweeping over the empire. When a year or two ago it was announced that the Chinese were abandoning their pig-tails and proposing to establish a parliament that seemed about as far on the path of progress as they could reasonably be expected to go, but now it seems that they are traveling the whole road. The world is moving so fast it is hard to keep up with the procession. No sooner is there a revolution that brings a republic in Portugal than an other uprising starts a new era of liberty in Mexico, the Italians drive the Turks out of Africa, and then the oldest and most populous empire of them all starts helter skelter toward democracy. The kaleidoscope of world politics changes overnight. The lords are trimmed of power in Great Britain, France and Germany settle their differences over Morocco with nothing more serious than a few conversations, and Italy slices off Tripoli in thirty-three minutes by the clock. But China! Well, when China begins to move the rest of us might as well cut loose and start toward the millennium.

The United States should be especially interested in this latest Chinese uprising for the reason that it is a movement toward popular government, also that ever since the Burlingame treaty we have been a potent influence for liberalism there and for the further reason that it was John Hay's diplomacy which maintained the integrity of China. Moreover, we are especially concerned in all that goes on around the Pacific ocean, the new theater of civilization in which this country should play a star part.

### Six Thousand Years Old.

China is so old that her legendary history goes back something like 6,000 years and so populous that nearly one-third of the world's inhabitants swarm within her provinces. She had a civilization before the time of Abraham, was a flourishing state in the days of the Trojan war, followed great moral and religious teachers ere the dawn of the Christian era and was a very ancient nation when western Europe was emerging from barbarism. The world is strewn with the wrecks of empires, but China has outlived them all. She was a contemporary of Babylon and ancient Egypt. She looked on Rome and Greece as mere young upstarts among the nations. She antedated the Aryan migration. "Westward the star of empire takes its way," but China's star is older and has hung steadfast. In China the people worship their ancestors, and it is no wonder—there are so many of them. It is a land of ancestors. An old family in China has something of which to boast. The aristocracies of Europe are mere mushrooms by comparison. If ancient lineage is a distinction the humblest "chink" has the proudest "mildred" beaten several thousand years.

Primarily the Chinese uprising aims at the dethronement of the Manchu dynasty. This is about 300 years old, or goes back nearly to the settlement of Jamestown. The Manchus were called in to protect China from her foes. They liked the country and stayed. Though there are only a handful of them compared to the hundreds of millions of Chinese, the Manchus have ruled the country from that time to the present. Not only have they furnished the emperors, but the ruling groups that surrounded these and many of the subordinate officials. Just how inhumanly oppressive they have been may be judged from the fact that it was the Manchus who made the Chinese shave their heads and wear pig-tails. That would be like fifteen or twenty Canadians going into New York and forcing the whole male population to wear billygoat whiskers.

### The Chinese Washington.

The leader of the revolution is Dr. Sun Yat Sen, who has \$50,000 on his head in China and therefore lives in America, England, India, Japan or anywhere else except his own native land, where the living is not good. Dr. Sun is a scholar who speaks and writes English fluently and who is a student of the career of Napoleon and of the revolutionary eras in western nations. Rumor has it that if the present insurrection succeeds he is to be the first president of the republic of China. A gentleman who once met Dr. Sun in New York thus described him:

"I was first introduced to Dr. Sun Yat Sen at a social gathering in a well known club. I was greatly struck with him. He was a charming raconteur, and in wonderfully good English at once scholarly and idiomatic he told us the adventures of his eventful life. Particularly vivid was his account of how he was kidnapped and imprisoned in the Chinese legation in London. He told how numerous attempts

to assassinate him had been made in America, how China had put a heavy price upon his head and how in England his footsteps were dogged. 'I was followed to this club. I am being shadowed even now,' he said. 'Look! he said as he took us to the club windows. 'Don't you see there? And as he spoke the figure of a Chinaman with the air of a furtive watcher passed by.' To another informant Dr. Sun Yat Sen declared that his aim, besides expelling the Manchu usurpers and restoring the national glory of China,

## IS TOTTERING; BE THE OUTCOME

Program Is Similar to That Which Inspired American and French Revolutions.

was to achieve a political change on the basis of freedom, equality and humanity. A military government would be established as preliminary to the achievement of this object, he said. China would be restored to the Chinese, a republic would be established and a president elected by universal suffrage. Moreover, equal rights in land would be established on a socialist basis, abolishing all monopolies. Slavery, foot binding and the opium habit were to be suppressed, and at the end of three years, or earlier if conditions warranted it, the military regime would be replaced by a constitutional regime. Self government would be effected by means of a national assembly, with

its influence, the foreign concessions helped along the modernizing movement, the missionaries taught democracy along with Christianity, even though they did it unintentionally, and in other ways the living spirit of the west has found entrance into the dead-alive humanity of the orient. The railroads and newspapers have had their part in the work of education, and even commercialism has unwittingly been made an evangel of the new political faith. However selfish may be its motives, trade is a civilizing influence. The open door in China has let in more than merchandise. It has admitted the gospel of the rights of man that has revolutionized the western nations. Once let that get into the hearts of a people and it will do its work. The heaven will lighten the whole lump. Yesterday it was Portugal; today it is China; tomorrow it may be some other nation or many other nations. The change wrought in China is indicated by a Japanese writer, who says:

### New Chinese Nationalism.

"Nationalism was a foreign word to the Chinese in the Taping days. This latter day awakening of the consciousness of the vast millions of China to the sense that they are a part of a great race and of a great empire gives to this present unrest a pregnant

a president as the central figure of the civil authority. While the object of the revolutionary leaders was to preserve China for the Chinese, Dr. Sun Yat Sen said, there was nothing in the movement hostile to foreign residents in China or opposed to foreign trade with that country.

### The Spirit of the West.

That is an inspiring program, breathing the same spirit that actuated the American and French revolutions and that has been present in the great movements toward democracy witnessed in various parts of the earth since then. The seed sown by Cromwell, Rousseau, Thomas Paine, Franklin, Jefferson, Danton and Robespierre has taken root all around the world. Dr. Sun may become another Washington, Bolivar or Garibaldi, a prophet of the new political gospel in the world's oldest civilization. Amid the greatest perils he has planned for years this revolt that was to make a new China in which political liberty, public schools and a free press should end the ancient tyranny and superstition. The uprising is not the thing of a day, but has been long and carefully planned. Months ago Dr. Sun predicted that Wuchang, the very city in which the insurrection started, should be a revolutionary stronghold. Since then he has only waited for the time to grow ripe.

The insurrection first appeared in a province near Hupeh, but was stamped out there temporarily some months ago. In Hupeh it found better footing and soon had spread beyond bounds. From Wuchang it crossed the Yangtze to Hankow and spread like wildfire through the rich provinces of central China. At Hankow and other points the Manchus were massacred. While it is a movement of "China for the Chinese," it is not aimed at foreigners. In fact, people from western nations are welcomed since it is the modern ideas of the accident that are behind the revolt. The animosity is definitely and intelligently directed against the Manchus and their overlordship. The goal sought is a new Chinese nationalism, after the pattern of the great nations of the west.

### Public Schools and the Press.

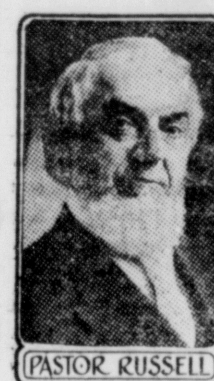

Education is the power that has worked the change. Thousands of Chinese youths have been abroad at school, some of them in the University of Tokyo, others in the colleges of America and Europe. These returning students became the prophets of revolution and change. The thousands of Chinamen that returned to their own land from America have also had an influence. They could not live in a republican atmosphere for years without breathing in some of its spirit. Americans have not dreamed that the men who washed their shirts would thus become the unconscious seed bearers of democracy, but the Providence that is liberating this world works in mysterious ways. The invasion of China by the allies also had

## "PEACE AND SAFETY" A GREAT DELUSION.

God's Times and Seasons Maturing.

## A NEW DISPENSATION OPENING

Pastor Russell in Glasgow—The Divine Plan Diversified but Orderly—Age Follows Age in an Uplifting Process. Not Evolution but Restitution.

PASTOR RUSSELL

Glasgow, Oct. 29.—Pastor Russell gave two discourses today at St. Andrew's Hall to large and attentive audiences. We report his discourse from the text, "Of the times and seasons ye have no need that I write unto you, for yourselves know perfectly that the day of the Lord so cometh as a thief in the night. And when they shall say, Peace and safety, then sudden destruction cometh upon them as travail upon a woman with child and they shall not escape. But ye, brethren, are not in darkness that that day should overtake you as a thief. Ye are children of the light."—I Thessalonians v, 1-5.

The world is not expected to understand the Divine times and seasons, plans and purposes. The Redeemer declared that the Father hath hidden these things from the worldly-wise and prudent and has revealed them unto babes—the humble-minded, the footstep followers of Jesus. (Matthew xi, 25.) "The secret of the Lord is with them that reverence Him, and He will show them His Covenant."

### "The Wise Shall Understand"

The Prophet Daniel, referring to the present day, declared, "None of the wicked shall understand, but the wise shall understand." (Daniel xii, 10.) To understand the secret purposes of the great in advance of their accomplishment implies a nearness and touch and acquaintance out of the ordinary. And so God's children, begotten of the Holy Spirit, are privileged to know the things of God—"yea, the deep things."

The speaker likened this relationship between God and His saints to wireless telegraphy. God's people have coherers tuned in harmony with Himself by His Word and Spirit. These can receive much of the deep things of God. The worldly have no coherers at all—no means, therefore, of communication with the Infinite. The luke-warm Christian has, indeed, a coherer in the Holy Spirit, but it is not tuned to the proper key and is therefore, not prepared to receive the deep things of Divine communication.

Our world for six thousand years has been a battlefield on which the hosts of darkness have largely prevailed over the comparatively small number of children of the light, who in an enemy's country have stood forth for God, the Redeemer, the brethren and the Truth against the "Prince of this world"—Satan. Moreover the children of light have been hindered from using the "earnal weapons" of the children of darkness. They may not render evil for evil nor slander for slander. They may only do good and bless those who revile them.

### Harvest Time Is Here

Is this condition of things to continue forever? Does God intend that to all eternity there shall be this battle between light and darkness, with the darkness in the ascendant and control? No! The Bible declares that a great change and a New Dispensation is at hand, in which the order of affairs will be reversed.

The Lord has been doing a work during the period of the reign of sin and death. He has been selecting two classes of children of the light, both to be used in the great world-wide work of the next Age. God refers to His work in agricultural terms; for instance, with the Jewish nation, He did a plowing, harrowing, sowing, cultivating and reaping work. Their plowing time preceded the entrance of the nation into Canaan. The Law Incarnation was the sowing. The reaping of the Age was at its close; Jesus was the Chief Reaper. His Apostles were associates. To them He said, "I sent you forth to reap that whereon ye had bestowed no labor; other men labored and ye are entered into the fruits of their labors." The saints then reaped were gathered into the Gospel garner at Pentecost and after fiery tribulations the field was cleansed of its chaff.

This Gospel Age has similarly been a time of plowing, sowing and reaping. The tribulations of the early Church were associated with the sowing of the precious seed. Again we are in a harvest time—"The harvest is the end of the Age." This time the gathering of the fruitage will be to a still higher plane—"to glory, honor and immortality" by participation in the "first (chief) resurrection." Then will follow the cleansing of the field again by fiery troubles—"A time of trouble such as never was since there was a nation." That trouble time will be plowing and harrowing time of a new dispensation for a world-wide crop under the most favorable conditions. These three different ages, however, produce different crops—different as are their conditions.

### Oldest Lighthouse.

La Coruna, the Spanish harbor, boasts, it is said, of the oldest lighthouse in the world, it having been built by the Romans in the time of Trajan, between 98 and 117 A. D. About 111 years ago the structure was overhauled and partly rebuilt, though the lower part of the pile was found to be in perfect condition, a tribute to the building ability of the Roman masons. When the weather is favorable the light can be seen a distance of twenty-two miles at sea.

### Reasonably Certain.

"I understand old Skinfint has got religion."  
"It's possible."  
"Do you really think so?"  
"Well, if Skinfint and religion have come together at all I think it is safe to say that he has got religion. There certainly is nothing to indicate that religion has got him."—Chicago Post.

## BRAINERD 10, LITTLE FALLS 0

Brainerd High School Wins in a Desperately Fought Contest at Little Falls

### MANY ROOTERS MADE THE TRIP

Bergreen and Day Make Touchdowns—Brainerd Played a Magnificent Game

Saturday afternoon Coach Calland led his football squad to Little Falls and there administered a stinging 10-0 defeat to the down-river aggregation. The game was desperately fought from whistle to whistle and the work of the Brainerd squad was more than excellent.

Capt. Mahlum won the toss and chose to defend the south goal, Little Falls kicking to Brainerd. By a series of line plunges the defenders of the blue and white rapidly carried the ball into Little Falls territory until a touch down seemed a certainty. Little Falls braced however and punted the ball out of danger and from that time on there was little danger of scoring on either side or the first quarter.

The second and third quarters were simply a repetition of the first. The Brainerd backfield constantly plowed through the Little Falls line; the ends were down on every punt but scoring seemed an impossibility, although the ball was always in Little Falls territory.

But with the beginning of the last quarter a change was at once apparent. The Brainerd team played like lemons, every man doing stellar work. Mahlum, Trent and Day ripped the opposing line to shreds, and to vary the monotony, Happy Alderman pulled off his second sensational long end run. In the very shadow of their goal, Little Falls made a desperate stand and held Brainerd for downs. Greish attempted to punt on the first down but was blocked by Capt. Mahlum and Bergreen carried the ball over for the first touch down. Alderman punted out to Mann. Mahlum missed a beautiful try for goal against a stiff wind. Animated by this success Brainerd tore into the fray, rushed the ball down the field with scarce a pause and sent Day over the line for the second touch down with only two minutes of play remaining.

To select an individual star is only a matter of opinion but Capt. Mahlum's steady, consistent line smashing coupled with his blocking of Greish's punt at a critical moment, seemed to win him first place with the Brainerd spectators. Twice Alderman electrified the crowd by tear-

## IMPERIALISTS -BURN HANKOW

Special to Dispatch:—

Shanghai, China, October 30.—A wireless message from the British warships at Hankow says that the Imperialists are burning the native city of Hankow and that the entire advance of the government forces is marked with most hideous brutality.

ing through a broken field for long gains, his second run being mainly responsible for the first touch down. Trent and Day battered their way into a high place in the respect of the Little Falls line men. Purdy was down with the ball on every punt and in several instances recovered the oval for good gains. Fram tackle to tackle the Brainerd line outplayed the opposing forces and not once did Little Falls do any damage in this direction. Among the linemen, Bergreen sprang into prominence by his quick recovery of the ball on the blocked punt, and his resulting touch down.

Early in the game Brainerd's prospects seemed darkened by injuries to Kirk Smith and Tim Brady, necessitating their removal from the game. But their places were filled by "Weary" Purdy and Ralph Mann, in a way which brought joy to the hearts of the Brainerd rooters.

"Throughout the game the Brainerd team showed a decided improvement in form over anything seen this year. Coach Calland is to be complimented on his work the past week. That the fans as well as the players appreciate Mr. Calland's efforts may be seen from the fact that his name was cheered to the echo at every possible opportunity.

Brady's injury is a badly sprained leg which threatens to end his football career for this season. Kirk Smith went into the game in crippled condition, and it was a certainty that he would not finish the game. But a week's rest should do wonders in getting him into shape for future contests.

After the game the football squad was banqueted at the high school and in the evening a dance was held at the same place. In spite of their defeat the Little Falls boys proved themselves royal entertainers and too much cannot be said in recognition of their efforts to show the Brainerd boys a good time.

About fifty Brainerd fans accompanied the team and succeeded in drowning out the noise of the home rooters. But then as Rooter King Werner Hemstead said, "We had something to root for."

## WANT OFFICERS TO PERFORM DUTIES

That is Why Attorneys Russell & Barron Demand Investigation of W. & L. Board

### OFFER THEIR SERVICES FREE

For an Investigation if the City Will Pay Cost of Engineer and Publication of Report

The Dispatch has received the following communication:

To the Citizens of Brainerd:

M. T. Dunn and Mons Mahlum, members of the Water & Light board, and William Nelson, secretary of the board, published in the Dispatch on Saturday last, a statement which commented on a certain letter which was sent to a number of citizens. While we have no objection to any attempt on these men to excuse or explain their neglect of duty, yet we do object to the carefully calculated attempt on their part to discredit us and nullify our efforts to compel the officers and servants of the city to properly perform their duties, honestly and efficiently.

For this reason, we make reply.

The letter which was written to twenty-one men in this city was formulated by request of a number of our clients. Many persons have visited our office and called certain specific evils and improper practices of the water and light board to our attention and have asked us if there is no remedy. And invariably we told them that if they would pay the cost of an investigation and a reasonable attorney's fee, we would undertake to find the remedy. No one person seemed willing to undertake the expenses or responsibility of this movement. Rightly or wrongly these men felt that they could not afford to make enemies and so risk injury to their business.

While we believe that the enemies they would make by fostering this kind of an investigation, would not injure, but on the contrary benefit their business, we were bound to respect their wishes in the matter. Hence, when they gave us a list of names of men who were willing to contribute their proportion of the expense of such investigation, on condition that their names be not in any manner disclosed, we sent to each of these men the letter published in this paper on Saturday last.

For that letter we offer no apology. For the individual—and we are fully aware of his identity—who received that letter and gave it out for publication we have only the greatest contempt. He would not have his name printed, although every other written or printed word in the letter appeared in print, even down to the initials of the writer and stenographer. Why was his name not printed? Was he afraid? Was he bought? These are ugly questions, but not so ugly as his conduct in the matter.

Again, why was this letter although dated on the 19th withheld from publication until the 28th? Was it in order that no reply could be made on the day following?

The advice of the city attorney that the public examiner is the person to conduct an examination of the books of the board, speaks for itself. We will call attention to the fact that the present city attorney is also attorney for M. T. Dunn, the Citizens State bank, the Northern Pacific railway company and the Toltz Engineering company. If the city attorney advised the members of the board who consulted him, that the examination by the public examiner was the only investigation that the law allows, then we are compelled to disagree with his interpretation of the law.

It is not only the books of this board that should be investigated. We presume that those books balance. We do not think that any of the members of the board are so crude and clumsy as to embezzle money from the city. But if the reports that have reached us, substantiated by evidence, are true, then the water and light board needs a thorough and searching examination that will be more than a mere examination of their books.

It is alleged by many citizens of this city that the Northern Pacific Railway company is receiving water (Continued on page 6)

## BOARD TO EXTEND LINES NORTHEAST

Commissioner Mahlum Submits Report on Extending Incandescent Line to Mill District

IT WILL COST OVER \$500.00

Council Committee Asks For an Annual Rate for Electricity Furnished the City

At the Water and Light board meeting President Dunn, Commissioner Mahlum and the secretary, Wm. Nelson, were present.

Commissioner Mahlum submitted a written report on building an incandescent line for lighting houses of the mill district and estimated it would cost over \$500 to install. The secretary was instructed to write the council to see if they approved of it.

A committee of the council, Aldermen Lagerquist, Dieckhaus, Henning and Rowley, was present and asked for an annual rate to cover all electricity used by the city departments. No action was taken and Tuesday evening, October 31, was set to further discuss the matter.

The railway company through Alderman Henning, asked that the poles already set be used by the railway in hanging its crossing lamps and that the city stand the expense of trimming them after installation. The board refused to stand any responsibility as to the railway lamps but agreed to furnish the poles.

The secretary was instructed to write the Toltz Engineering Co. that they were carrying a 10 percent overload, that 36 more arc lights were to be hung, and 33 per cent more current used and that some provision should be made by the company for carrying the additional load.

Bids were ordered advertised for repairing water mains. J. H. Long submitted a price on cedar poles and the communication was filed. The secretary was instructed to get prices from different firms.

The request of the school board for an arc light on the corner of Ninth and Pine was laid over as the board considered that it was a matter for the aldermen of the different wards when it came to locate lights. A light has already been designated for this corner by the aldermen.

Commissioner Schwartz was given leave of absence for six weeks from October 5. In the matter of the Rosewood street water main extension it was reported that many who had petitioned for a main were very slow in using water. There seemed to be no inclination on the part of some who had signed the petition and who clamored for the improvement, to connect up. C. N. Olson and C. L. Johnson appeared before the board and said they did not want to pay until they got water service.

A number of the water department and light department bills were allowed. The board made a rate of \$16 for the season for a private skating rink which had asked for figures.

## A Big Sale of Fine Woolen Blankets

We secured a large lot of fine wool blankets which had been used as sample blankets. A few of them are a little soiled on a portion of one blanket. Many of them could be put in stock as they are in such excellent shape. We purchased them at a big reduction and now they go on sale. It's your opportunity to buy good blankets at a very low price.

\$12.50 Wool Blankets, good large sizes, now on sale at.....\$7.75

## IMPERIALISTS BURN HANKOW

Special to Dispatch:—

Shanghai, China, October 30.—A wireless message from the British warships at Hankow says that the Imperialists are burning the native city of Hankow and that the entire advance of the government forces is marked with most hideous brutality.

ing through a broken field for long gains, his second run being mainly responsible for the first touch down. Trent and Day battered their way into a high place in the respect of the Little Falls line men. Purdy was down with the ball on every punt and in several instances recovered the oval for good gains. Fram tackle to tackle the Brainerd line outplayed the opposing forces and not once did Little Falls do any damage in this direction. Among the linemen, Bergreen sprang into prominence by his quick recovery of the ball on the blocked punt, and his resulting touch down.

Early in the game Brainerd's prospects seemed darkened by injuries to Kirk Smith and Tim Brady, necessitating their removal from the game. But their places were filled by "Weary" Purdy and Ralph Mann, in a way which brought joy to the hearts of the Brainerd rooters.

"Throughout the game the Brainerd team showed a decided improvement in form over anything seen this year. Coach Calland is to be complimented on his work the past week. That the fans as well as the players appreciate Mr. Calland's efforts may be seen from the fact that his name was cheered to the echo at every possible opportunity.

Brady's injury is a badly sprained leg which threatens to end his football career for this season. Kirk Smith went into the game in crippled condition, and it was a certainty that he would not finish the game. But a week's rest should do wonders in getting him into shape for future contests.

After the game the football squad was banqueted at the high school and in the evening a dance was held at the same place. In spite of their defeat the Little Falls boys proved themselves royal entertainers and too much cannot be said in recognition of their efforts to show the Brainerd boys a good time.

About fifty Brainerd fans accompanied the team and succeeded in drowning out the noise of the home rooters. But then as Rooter King Werner Hemstead said, "We had something to root for."

## WANT OFFICERS TO PERFORM DUTIES

That is Why Attorneys Russell & Barron Demand Investigation of W. & L. Board

### OFFER THEIR SERVICES FREE

For an Investigation if the City Will Pay Cost of Engineer and Publication of Report

The Dispatch has received the following communication:

To the Citizens of Brainerd: M. T. Dunn and Mons Mahlum, members of the Water & Light board, and William Nelson, secretary of the board, published in the Dispatch on Saturday last, a statement which commented on a certain letter which was sent to a number of citizens. While we have no objection to any attempt on these men to excuse or explain their neglect of duty, yet we do object to the carefully calculated attempt on their part to discredit us and nullify our efforts to compel the officers and servants of the city to properly perform their duties, honestly and efficiently.

For this reason, we make reply. The letter which was written to twenty-one men in this city was formulated by request of a number of our clients. Many persons have visited our office and called certain specific evils and improper practices of the water and light board to our attention and have asked us if there is no remedy. And invariably we told them that if they would pay the cost of an investigation and a reasonable attorney's fee, we would undertake to find the remedy. No one person seemed willing to undertake the expenses or responsibility of this movement. Rightly or wrongly these men felt that they could not afford to make enemies and so risk injury to their business.

While we believe that the enemies they would make by fostering this kind of an investigation, would not injure, but on the contrary benefit their business, we were bound to respect their wishes in the matter. Hence, when they gave us a list of names of men who were willing to contribute their proportion of the expense of such investigation, on condition that their names be not in any manner disclosed, we sent to each of these men the letter published in this paper on Saturday last.

For that letter we offer no apology. For the individual—and we are fully aware of his identity—who received that letter and gave it out for publication we have only the greatest contempt. He would not have his name printed, although every other written or printed word in the letter appeared in print, even down to the initials of the writer and stenographer. Why was his name not printed? Was he afraid? Was he bought? These are ugly questions, but not so ugly as his conduct in the matter.

Again, why was this letter although dated on the 19th withheld from publication until the 28th? Was it in order that no reply could be made on the day following?

The advice of the city attorney that the public examiner is the person to conduct an examination of the books of the board, speaks for itself. We will call attention to the fact that the present city attorney is also attorney for M. T. Dunn, the Citizens State bank, the Northern Pacific railway company and the Toltz Engineering company. If the city attorney advised the members of the board who consulted him, that the examination by the public examiner was the only investigation that the law allows, then we are compelled to disagree with his interpretation of the law.

It is not only the books of this board that should be investigated. We presume that those books balance. We do not think that any of the members of the board are so crude and clumsy as to embezzle money from the city. But if the reports that have reached us, substantiated by evidence, are true, then the water and light board needs a thorough and searching examination that will be more than a mere examination of their books.

It is alleged by many citizens of this city that the Northern Pacific Railway company is receiving water (Continued on page 6)

## BOARD TO EXTEND LINES NORTHEAST

Commissioner Mahlum Submits Report on Extending Incandescent Line to Mill District

IT WILL COST OVER \$500.00

Council Committee Asks For an Annual Rate for Electricity Furnished the City

At the Water and Light board meeting President Dunn, Commissioner Mahlum and the secretary, Wm. Nelson, were present.

Commissioner Mahlum submitted a written report on building an incandescent line for lighting houses of the mill district and estimated it would cost over \$500 to install. The secretary was instructed to write the council to see if they approved of it.

A committee of the council, Aldermen Lagerquist, Dieckhaus, Henning and Rowley, was present and asked for an annual rate to cover all electricity used by the city departments. No action was taken and Tuesday evening, October 31, was set to further discuss the matter.

The railway company through Alderman Henning, asked that the poles already set be used by the railway in hanging its crossing lamps and that the city stand the expense of trimming them after installation. The board refused to stand any responsibility as to the railway lamps but agreed to furnish the poles.

The secretary was instructed to write the Toltz Engineering Co. that they were carrying a 10 percent overload, that 36 more arc lights were to be hung, and 33 per cent more current used, and that some provision should be made by the company for carrying the additional load.

Bids were ordered advertised for repairing water mains. J. H. Long submitted a price on cedar poles and the communication was filed. The secretary was instructed to get prices from different firms.

The request of the school board for an arc light on the corner of Ninth and Pine was laid over as the board considered that it was a matter for the aldermen of the different wards, when it came to locate lights. A light has already been designated for this corner by the aldermen.

Commissioner Schwartz was given leave of absence for six weeks from October 5. In the matter of the Rosewood street water main extension it was reported that many who had petitioned for a main were very slow in using water. There seemed to be no inclination on the part of some who had signed the petition and who clamored for the improvement, to connect up. C. N. Olson and C. L. Johnson appeared before the board and said they did not want to pay until they got water service.

A number of the water department and light department bills were allowed. The board made a rate of \$16 for the season for a private skating rink which had asked for figures.

## A Big Sale of Fine Woolen Blankets

We secured a large lot of fine wool blankets which had been used as sample blankets. A few of them are a little soiled on a portion of one blanket. Many of them could be put in stock as they are in such excellent shape. We purchased them at a big reduction and now they go on sale. It's your opportunity to buy good blankets at a very low price.

9. Piano solo—Miss Jenny Wilson

### TABLE D'HOTE DINNER

Ransford Hotel Gives a Splendid Sunday Evening Dinner From 5:30 to 7:30

The Ransford hotel, always seeking to improve its service, now makes a feature of its Sunday evening table d'hote dinners, served from 5:30 to 7:30 in the evening. A moderate charge of 75 cents is made and the service and menu equals anything in the Twin Cities. William J. Garvey is the chef and has been given carte blanche by Manager C. H. Rattinger in providing a menu which will tickle

the palate of the most fastidious epicurean. Last Sunday's menu was enjoyed by many and expressions of approval were heard on all sides. Tables are being reserved by parties for next Sunday's dinner. 1t

After exposure and when you feel a cold coming on, take Foley's Honey and Tar compound. It checks and relieves. Use no substitutes. The genuine in a yellow package always. For sale by all druggists.

#### THEY CLAIM \$180,000,000.

**American Heirs of Dutch General Believe Claim Convincing.**  
Claiming title to a \$180,000,000 estate left by the Dutch general Paul Wertz, who died in Amsterdam in 1732, descendants residing in the United States are devising a plan for presenting their case to the government of the Netherlands.

Mrs. Estelle Ryan Snyder of Chicago said:

"We have a most convincing claim to present. I have a plan whereby a working fund will be accumulated, to be spent by eleven lawyers among the heirs in waiting on the Dutch government and pushing our claim."

"A majority of heirs come from Pennsylvania, by reason of the fact that Jacob Wertz, son of the rich old general, settled in that state."

**Ancient Rules For Carving.**  
Our ancestors fully recognized the value of good carving, and many were the rules by which a carver was expected to be governed. The ancient "Boke of Kervyng," among other things, admonishes him to touch venison only with his knife and to "set never on fische, fesch, beeste ner fowle more than two fyngers and a thumb." Fingers he was naturally obliged to use since forks were a luxury of later date and were not in private use until James I.'s reign. Piers Gaveston, the favorite of Edward II., had three silver forks for eating pears, but this was regarded, no doubt, as a great and special luxury.

**Maps.**  
Bartholomew Columbus, brother of the renowned discoverer, introduced maps into England in 1489.

#### WANT OFFICERS TO PERFORM DUTIES

(Continued from page 5)

from the city at less than it costs the city to pump that water. And yet the attorney for the city and the legal adviser of the board is also attorney for the Northern Pacific railway company.

It is charged that the Toltz Engineering company is not complying with its contract with the city. That the light service is neither continuous nor satisfactory as required by contract. That the Toltz Engineering company is not required to pump water for the city. That if the company was required as provided by its contract to pump water to the city at a cost of 1 1/2 cents per kilo watt hour, a great saving would be effected. Yet when the same man is attorney for the city, the board and the company that furnishes the current how can this contract be enforced by the city?

These are a few of the charges made against the board and there are others and more serious ones that we will not disclose unless the citizens of Brainerd want an investigation. They are charges that could neither be verified nor disproved by a mere examination of the books. If the board is looking for a white wash there could be no better way to obtain such white wash than by an examination of the books only, as suggested by the city attorney.

Now that the members of the board have invited the fullest investigation of their official conduct, we as attorneys and counsellors at law have decided to meet them half way. It would be wrong not to investigate them after such a free and open invitation. To the end that such an investigation may be had, we hereby offer our services free of charge to the citizens of Brainerd on the condition that they pay the expenses of that investigation including the services of a competent engineer and the cost of publishing a complete report of the proceedings and the findings based on actual and competent evidence.

Until the statement made by the board was published we had refused to conduct such an investigation unless paid our usual fees. Now we will cheerfully donate our services for the welfare of the city.

Stop complaining about your light service. Stop talking about the conduct of the water and light board. Stop all criticism and comment, unless you mean business and are willing to make the board account for its actions. If you mean business and insist on an accounting, we will gladly show you how to proceed. And when we are through you will then know whether the charges against the board are true or whether they are false.

Mindful of our obligations as citizens and lawyers we pledge your our most earnest efforts to "clean up" this particular branch of our city government. Without fear or favor, without partiality or personal feeling, we will endeavor to serve you in this matter to the best of our ability. And if we fail we will have the consolation of knowing that we have done our best.

Very sincerely yours,  
RUSSELL & BARRON,  
Per Barron.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

#### MAY SING IN BRAINERD

Miss Grace Chadbourne, Soprano Pupil of Wm. H. Pontius, Makes Favorable Impression

Miss Grace Chadbourne, daughter of Mr. and Mrs. B. F. Chadbourne, of Detroit and a niece of G. W. Chadbourne, of this city, created a most favorable impression when she recently sang a group of songs in Minneapolis. County Superintendent Mrs. Irma C. Hartley had the pleasure of listening to the singer and was greatly pleased with her singing and it is said that she may be urged to sing before the Brainerd Musical club. The Minneapolis Tribune has the following mention of the young lady:

"Grace Chadbourne, soprano pupil of William H. Pontius, head of the vocal department, sang a group of songs before the Minnesota educational association at the Y. M. C. A. last Thursday. Gertrude Hall of the faculty played the accompaniments."

#### TWO MINDEDNESS.

High mindedness and right mindedness may profitably be supplemented by "two mindedness," which has been defined as the habit of taking into account what is urged on both sides and trying to combine the essential parts of the two opposing arguments into one higher truth. Magnanimity, honesty, breadth, a trio of qualities worth possessing, and the last by no means the least.

#### Italy's Salt.

Italy, the cradle of the salt industry, has been manufacturing salt commercially for 2,500 years.

#### Sullivan-Brady

Andrew Leslie Sullivan, of East Grand Forks, Minn., and Miss Marie Brady, the daughter of Mr. and Mrs. Timothy H. Brady, of this city, were married at nine o'clock this morning in St. Francis Catholic church, Rev. Father O'Mahoney performing the pleasing ceremony. The church was handsomely decorated and the service was performed before a gathering embracing members of the families of the contracting parties and other immediate relatives.

The bride was attired in a gown of white Irish lace over silk and carried a bouquet of roses. She was attended by her sister, Miss Gertrude Brady, who was dressed in a gown of champagne silk over pink and carried a bouquet of pink carnations.

The best man was William Hogan, of East Grand Forks. After the wedding ceremony all repaired to the home of the bride's parents, 516 North Ninth street, where a four course wedding breakfast was served at ten o'clock. The bride's going away gown was of blue serge and she wore a black picture hat. They left this afternoon for St. Paul and later Duluth on their wedding trip and will make their home in East Grand Forks near which city the groom has a large farm.

Among the out of town guests were Mrs. M. Neville, of Grand Forks, N. D., and Mrs. Fred Craig, of East Grand Forks, Minn., sisters of the bride; and the Misses Laura and Clara Wood. The bride's maid was Miss Mary Wood.

#### James C. Dahlman, "Cowboy" Mayor of Omaha, "Throws the Lariat"

Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record. Sheriff of Dawes Co., Neb., three terms; Mayor of Chadron, two terms; Democratic National Committeeman, eight years; Mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me great deal of relief so I cheerfully recommend them." Yours truly  
(Signed) James C. Dahlman.

#### Movable Foliage.

"You ought to plant some shrubbery around the station. The division superintendent will be through in a few days."

"That won't give me time enough to plant shrubbery," said the station master, "but I'll get some of our whiskered citizens to stand around as he passes through."—Louisville Courier-Journal.

#### DEATH OF MRS. J. BRINKERHOFF

**Former Brainerd Lady Passes Away**  
October 20 at Her Home in Spokane, Wash.

News has been received in the city of the death of a former Brainerd lady, Mrs. Josephine Brinkerhoff, who passed away at her home, 2218 Sinto avenue, Spokane, Wash., on October 20. Mr. and Mrs. Brinkerhoff and family made their home in Brainerd from 1877 to 1880 and later went to the western city to reside. The deceased was widely known as an earnest worker along educational and philanthropic lines and was a woman deserving of much commendation for her altruistic endeavors. Under the heading, "Brinkerhoff Funeral Large," the "Spokesman Review," of Spokane, Wash., says:

"The remains of Mrs. Josephine Brinkerhoff, aged 76 years, Spokane pioneer and charity worker, who died last Friday morning, were laid to rest yesterday afternoon in Greenwood cemetery. Funeral services were held at the residence, 2218 Sinto avenue, commencing at 2 o'clock, the Rev. E. L. House, officiating. Because of Mrs. Brinkerhoff's activities during life in the floral association, which she organized and of which she was the first president, the floral offerings were many and costly.

Various Masonic organizations to which her aged husband, Moses Brinkerhoff, belonged; the Sorosis club, of which Mrs. Brinkerhoff was a prominent member; the city engineer's office, where her son, George, is employed, and numerous personal friends sent flowers. Three songs were sung by Mrs. C. C. McEachran, including "Nearer, My God, to Thee," "Come Unto Me" and "Abide With Me."

"Mrs. Brinkerhoff was born in New York city. She and her husband were married in Omaha, Neb., 52 years ago, having celebrated their golden wedding in 1909. They came to Spokane 22 years ago. Mr. Brinkerhoff driving the first locomotive into Spokane over the Northern Pacific. Mrs. Brinkerhoff was the organizer and one of the seven charter members of the floral association and was elected its first president in 1896. She also was a charter member of the Sorosis club and was active in various charities, being constantly concerned in some work of that character."

Application for Liquor License  
To the Council of the City of Brainerd, Minnesota.

The undersigned, Maurice LaMoine, hereby makes application for a license to sell intoxicating liquors, at upon and in the room and premises described as follows, to-wit: No. 418 Front Street, on the ground floor, in the City of Brainerd, from November 15th, 1911, until November 15th, 1912.

Dated October 23, 1911.  
(Signed) MAURICE LAMOINE  
said applicant has been licensed to sell intoxicating liquors in the City of Brainerd from October 6th, 1909, to October 6th, 1910.

Notice is hereby given that a hearing on the above application will be had on November 6th, 1911, at 8:00 o'clock p. m., at a regular meeting of the City Council of the City of Brainerd.

Dated October 23rd, 1911.  
V. N. RODERICK, Clerk.

## Baking's a Joy with CALUMET BAKING POWDER

"Baking day" becomes a day of smiles, when you use Calumet. A day of smiles for you and for the rest of the family, too.

You'll be delighted because Calumet is so unfailling in its results. You'll not have one baking ruined—not one batch of materials wasted—but every baking will come from the oven fluffy and tasty and evenly raised.

And then—the best test of all—watch the smiles when your Calumet bakings go on the table. The whole family will appreciate the difference that Calumet makes—the fluffier, daintier biscuits and rolls—the tempting pies and pastries—the piping hot and appetizing griddle cakes.

Always insist on Calumet. Your grocer has it—or can get it if you'll refuse substitutes.

Some days we succeeded in getting her to take one ounce of food and some days three ounces for about two weeks, but not a day passed without her getting some food, and by this means we succeeded in keeping life in her until she was strong enough to take more. Now she is rosy, fat and walking."

Mrs. J. A. Crooks, 226 E. 10th St., Manchester, Va.

**A HAPPY DISPOSITION.**

Every one should strive to cultivate a happy disposition. A happy disposition is largely a disposition to make others happy. One life permeates all things, and there is no corner of the cosmos too remote to feel its heart throb.—Henry Wood.

**Dr. Elliot to Tour World.**

President Emeritus Charles W. Elliot of Harvard is about to make a tour of the world. He will leave this country on Nov. 7 en route for Cherbourg, France. Dr. Elliot's tour will include India, Japan and China. He will be gone eight months.

**We Make Exchanges—We Will Trade Your Farm for City Property, or Trade City Property for Farm Lands**

**CUYUNA-DULUTH IRON CO.**

Shares one dollar (par value fully paid and non-assessable) one tenth cash and one tenth per month. The company now has two properties that they are drilling and are getting good iron ore in both. They have bought six forty-acre tracts outright and have two drills running and are going to put on another one. The shares that are being sold are for the purpose of paying for exploration work and buying fee interests in iron lands.

Call and look over my list of large and small farms and lake frontages, houses and nice building lots. Do not wait, you can buy now much cheaper than you can in the spring.

## THEY CLAIM \$180,000,000.

**American Heirs of Dutch General Believe Claim Convincing.**

Claiming title to a \$180,000,000 estate left by the Dutch general Paul Wertz, who died in Amsterdam in 1732, descendants residing in the United States are devising a plan for presenting their case to the government of the Netherlands.

Mrs. Estelle Ryan Snyder of Chicago said:

"We have a most convincing claim to present. I have a plan whereby a working fund will be accumulated, to be spent by eleven lawyers among the heirs in waiting on the Dutch government and pushing our claim."

A majority of heirs come from Pennsylvania, by reason of the fact that Jacob Wertz, son of the rich old general, settled in that state.

**Ancient Rules For Carving.**

Our ancestors fully recognized the value of good carving, and many were the rules by which a carver was expected to be governed. The ancient "Boke of Kervynge," among other things, admonishes him to touch venison only with his knife and to "set never on fische, flesh, besteer nor fowle more than two fingers and a thumb." Fingers he was naturally obliged to use since forks were a luxury of later date and were not in private use until James I's reign. Piers Gaveston, the favorite of Edward II, had three silver forks for eating pears, but this was regarded, no doubt, as a great and special luxury.

**Maps.**

Bartholomew Columbus, brother of the renowned discoverer, introduced maps into England in 1489.

## WANT OFFICERS TO PERFORM DUTIES

(Continued from page 5)

from the city at less than it costs the city to pump that water. And yet the attorney for the city and the legal adviser of the board is also attorney for the Northern Pacific railway company.

It is charged that the Toltz Engineering company is not complying with its contract with the city. That the light service is neither continuous nor satisfactory as required by contract. That the Toltz Engineering company is not required to pump water for the city. That if the company was required as provided by its contract to pump water to the city at a cost of 1 1/2 cents per kilo watt hour, a great saving would be effected. Yet when the same man is attorney for the city, the board and the company that furnishes the current how can this contract be enforced by the city?

These are a few of the charges made against the board and there are others and more serious ones that we will not disclose unless the citizens of Brainerd want an investigation. They are charges that could neither be verified nor disproved by a mere examination of the books. If the board is looking for a white wash there could be no better way to obtain such white wash than by an examination of the books only, as suggested by the city attorney.

Now that the members of the board have invited the fullest investigation of their official conduct, we as attorneys and counsellors at law have decided to meet them half way. It would be wrong not to investigate them after such a free and open invitation. To the end that such an investigation may be had, we hereby offer our services free of charge to the citizens of Brainerd on the condition that they pay the expenses of that investigation including the services of a competent engineer and the cost of publishing a complete report of the proceedings and the findings based on actual and competent evidence.

Until the statement made by the board was published we had refused to conduct such an investigation unless paid our usual fees. Now we will cheerfully donate our services for the welfare of the city.

Stop complaining about your light service. Stop talking about the conduct of the water and light board. Stop all criticism and comment, unless you mean business and are willing to make the board account for its actions. If you mean business and insist on an accounting, we will gladly show you how to proceed. And when we are through you will then know whether the charges against the board are true or whether they are false.

Mindful of our obligations as citizens and lawyers we pledge your our most earnest efforts to "clean up" this particular branch of our city government. Without fear or favor, without partiality or personal feeling, we will endeavor to serve you in this matter to the best of our ability. And if we fail we will have the consolation of knowing that we have done our best.

Very sincerely yours,  
**RUSSELL & BARRON,**  
Per Barron.

**State of Ohio, City of Toledo, Lucas County, ss.**

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sold by all druggists.

Take Hall's Catarrh Pills for constipation.

**MAY SING IN BRAINERD**

Miss Grace Chadbourne, Soprano Pupil of Wm. H. Pontius, Makes Favorable Impression

Miss Grace Chadbourne, daughter of Mr. and Mrs. B. F. Chadbourne, of Detroit and a niece of G. W. Chadbourne, of this city, created a most favorable impression when she recently sang a group of songs in Minneapolis. County Superintendent Mrs. Irma C. Hartley had the pleasure of listening to the singer and was greatly pleased with her singing and it is said that she may be urged to sing before the Brainerd Musical club. The Minneapolis Tribune has the following mention of the young lady:

"Grace Chadbourne, soprano pupil of William H. Pontius, head of the vocal department, sang a group of songs before the Minnesota educational association at the Y. M. C. A. last Thursday. Gertrude Hall of the faculty played the accompaniments."

**TWO MINDEDNESS.**

High mindedness and right mindedness may profitably be supplemented by "two mindedness," which has been defined as the habit of taking into account what is urged on both sides and trying to combine the essential parts of the two opposing arguments into one higher truth. Magnanimity, honesty, breadth, a trio of qualities worth possessing, and the last by no means the least.

**Italy's Salt.**

Italy, the cradle of the salt industry, has been manufacturing salt commercially for 2,500 years.

## Sullivan-Brady

Andrew Leslie Sullivan, of East Grand Forks, Minn., and Miss Marie Brady, the daughter of Mr. and Mrs. Timothy H. Brady, of this city, were married at nine o'clock this morning in St. Francis Catholic church, Rev. Father O'Mahoney performing the pleasing ceremony. The church was handsomely decorated and the service was performed before a gathering embracing members of the families of the contracting parties and other immediate relatives.

The bride was attired in a gown of white Irish point lace over silk and carried a bouquet of roses. She was attended by her sister, Miss Gertrude Brady, who was dressed in a gown of champagne silk over pink and carried a bouquet of pink carnations.

The best man was William Hogan, of East Grand Forks. After the wedding ceremony all repaired to the home of the bride's parents, 516 North Ninth street, where a four course wedding breakfast was served at ten o'clock. The bride's going away gown was of blue serge and she wore a black picture hat. They left this afternoon for St. Paul and later Duluth on their wedding trip and will make their home in East Grand Forks near which city the groom has a large farm.

Among the out of town guests were Mrs. M. Neville, of Grand Forks, N. D., and Mrs. Fred Craig, of East Grand Forks, Minn., sisters of the bride; and the Misses Laura and Clara Schaefer, of the same city.

Misses Schaefer and Mrs. Hogan joins with their many friends in wishing the young married couple all possible happiness and prosperity.

**James C. Dahlman, "Cowboy" Mayor of Omaha, "Throws the Lariat"**

Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record. Sheriff of Dawes Co., Neb., three terms; Mayor of Chadron, two terms; Democratic National Committeeman, eight years; Mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me great deal of relief so I cheerfully recommend them." Yours truly

(Signed) **James C. Dahlman.**

**Movable Foliage.**

"You ought to plant some shrubbery around the station. The division superintendent will be through in a few days."

"That won't give me time enough to plant shrubbery," said the station master, "but I'll get some of our whiskered citizens to stand around as he passes through."—Louisville Courier-Journal.

## DEATH OF MRS. J. BRINKERHOFF

**Former Brainerd Lady Passes Away October 20 at Her Home in Spokane, Wash.**

News has been received in the city of the death of a former Brainerd lady, Mrs. Josephine Brinkerhoff, who passed away at her home, 2218 Sinto avenue, Spokane, Wash., on October 20. Mr. and Mrs. Brinkerhoff and family made their home in Brainerd from 1877 to 1880 and later went to the western city to reside. The deceased was widely known as an earnest worker along educational and philanthropic lines and was a woman deserving of much commendation for her altruistic endeavors. Under the heading, "Brinkerhoff Funeral Large," the "Spokesman Review," of Spokane, Wash., says:

"The remains of Mrs. Josephine Brinkerhoff, aged 76 years, Spokane pioneer and charity worker, who died last Friday morning, were laid to rest yesterday afternoon in Greenwood cemetery. Funeral services were held at the residence, 2218 Sinto avenue, commencing at 2 o'clock, the Rev. E. L. House, officiating. Because of Mrs. Brinkerhoff's activities during life in the floral association, which she organized and of which she was the first president, the floral offerings were many and costly.

Various Masonic organizations to which her aged husband, Moses Brinkerhoff, belonged; the Sorosis club, of which Mrs. Brinkerhoff was a prominent member; the city engineer's office, where her son, George, is employed, and numerous personal friends sent flowers. Three songs were sung by Mrs. C. C. McEachran, including "Nearer, My God, to Thee" "Come Unto Me" and "Abide With Me."

"Mrs. Brinkerhoff was born in New York city. She and her husband were married in Omaha, Neb., 52 years ago, having celebrated their golden wedding in 1909. They came to Spokane 22 years ago. Mr. Brinkerhoff driving the first locomotive into Spokane over the Northern Pacific. Mrs. Brinkerhoff was the organizer and one of the seven charter members of the floral association and was elected its first president in 1896. She also was a charter member of the Sorosis club and was active in various charities, being constantly concerned in some work of that character."

## Baking's a Joy with CALUMET BAKING POWDER

"Baking day" becomes a day of smiles, when you use Calumet. A day of smiles for you and for the rest of the family, too.

You'll be delighted because Calumet is so unfailling in its results. You'll not have one baking ruined—not one batch of materials wasted—but every baking will come from the oven fluffy and tasty and evenly raised.

And then—the best test of all—watch the smiles when your Calumet bakings go on the table. The whole family will appreciate the difference that Calumet makes—the fluffier, daintier biscuits and rolls—the tempting pies and pastries—the piping hot and appetizing griddle cakes.

Always insist on Calumet. Your grocer has it—or can get it if you'll refuse substitutes.
